

Explanation:

The question is an analogy question, which requires finding a pair of words that have a similar relationship to the pair given in the question. The given pair is "cover : reveal," which means that the first word is the opposite of the second word. To cover is to hide or conceal, while to reveal is to show or uncover. We need to find a pair among the options that has a similar relationship of opposites.

- ⇒ Analyze the given pair "cover : reveal" to understand the relationship. Covering something is the opposite action of revealing it.
- ⇒ Look at each option and determine if the first word is the opposite of the second word.
 - rock : harden - Rock is not the opposite of harden; hardening is a process that can happen to a rock.
 - flag : strengthen - A flag is not the opposite of strengthen; strengthening is not an action performed by a flag.
 - traffic : peddle - Traffic is not the opposite of peddle; peddling is an action that can occur within traffic.
 - brook : ripple - A brook is a small stream, and to ripple is an action that can happen on the surface of a brook. This is not an opposite relationship.
- ⇒ Since none of the options directly represent an opposite relationship, we must consider if any of them metaphorically or abstractly represent an opposite relationship. However, upon review, it is clear that none of the options provided have a relationship that mirrors the direct opposite relationship of "cover : reveal."
