Effectiveness of Selection and Classification Testing Milton H. Maier, Edmund F. Fuchs, 1973 the relationships between testing program training content and method and utilization on the job are probed and the methodology is explained by which the validity of the tests is established Analysis of measures of performance in job training programs and rating of job performance reveals that training performance is more satisfactory than job ratings for evaluating test effectiveness How well tests predict performance in training programs and the relation between test scores and other indexes of success are examined separately for blacks and whites Selection and classification tests are effective in identifying potential failures in Army training programs and for assigning men to jobs where their potential is best used and where they can best serve the Army Aptitude test scores are useful indicators of the proficiency and grade a man can attain of the time required to bring a trainee to a
