Exploring physical activity and sedentary behaviour in physical disability Jennifer Ryan,Claire Kerr,Cherry Bridget Kilbride,Meriel Norris,2022-12-12 Midwestern Landscape Architecture William H. Tishler,2000 This richly illustrated collection profiles the bold innovators in landscape architecture who around the turn of the twentieth century ventured into the nation s heartland to develop a new style of design celebrating the native midwestern landscape The pioneers of landscape architecture in the Midwest are responsible for creating some of the most recognizable parks cemeteries recreation areas and other public gathering places in the region Midwestern Landscape Architecture includes essays on Adolph Strauch who introduced a new concept of visually integrated landscape treatment in Cincinnati s Spring Grove Cemetery William Le Baron Jenney designer of Chicago s diverse West Parks and Jens Jensen who created the American Garden in Union Park in Chicago a celebration of native flora and founder of The Clearing a unique school of the arts and humanities in Wisconsin Other major figures include Frederick Law Olmsted Sr co designer of New York s Central

Park whose work in the Midwest included the layout of the 1893 World's Columbian Exposition and Ossian Cole Simonds who helped reconcile the formal approach of the City Beautiful movement with the naturalism of the Prairie School in urban park design. This volume also details the contributions of crusaders for ecological awareness and an appreciation of the region's natural heritage. These include horticultural writer Wilhelm Miller who spread the ideals of the Prairie style and Genevieve Gillette a landscape architect and conservationist whose preservation efforts led to the establishment of numerous Michigan state parks and wilderness areas. *Midwestern Landscape Architecture* fosters a better understanding of how landscape design took shape in the Midwest and how the land itself inspired new solutions to enhance its understated beauty. Despite Olmsted's assessment of the Illinois prairie as one of the most tiresome landscapes that I ever met with the Midwest has amassed an important legacy of landscape design that continues to influence how people interact with their environment in the heartland.

Planning Abu Dhabi Alamira Reem Bani Hashim, 2018-10-25 Abu Dhabi's urban development path contrasts sharply with its exuberant neighbour Dubai. As Alamira Reem puts it, Abu Dhabi capital of the United Arab Emirates since 1971 has been quietly devising its own plans to manifest its role and stature as a capital city. Alamira Reem, a native Abu Dhabian and urban planner and researcher who has studied the emirate's development for more than a decade, is uniquely placed to write its urban history. Following the introduction and description of Abu Dhabi's early modern history, she focuses on three distinct periods dating from the discovery of oil in 1960 and coinciding with periods in power of the three rulers since then: Sheikh Shakhbut bin Sultan Al Nahyan (1960-1966), Sheikh Zayed bin Sultan Al Nahyan (1966-2004), and Sheikh Khalifa bin Zayed Al Nahyan (2004). Based on archival research, key interviews, and spatial mapping, she analyses the different approaches of each ruler to development, investigates the role of planning consultants, architects, developers, construction companies, and government agencies, examines the emergence of comprehensive development plans and the policies underlying them, and assesses the effects of these many and varied influences on Abu Dhabi's development. She concludes that while much still needs to be done, Abu Dhabi's progress towards becoming a global sustainable city provides lessons for cities elsewhere.
