put into relation to the overall macroeconomic situation in each country There were a number of data problems that make the findings of this study less meaningful However to some extent this report can be seen as a best possible approximation and as a starting point for further and more detailed research The overall findings can be summed up as follows South Africa is not going to be the only winner from the free trade area and especially its textile and clothing sector might suffer as a result There are virtually no trade creation and trade diversion effects to be expected for the BLNS countries but there is a good possibility of additional exports Therefore they are likely to profit the most Angola and Mozambique will probably experience the strongest trade creation and trade diversion effects This will be triggered mainly by free trade with South Africa and the fact that their industrial base is very weak and has just started recovering
