Global Perspectives on Decolonizing Postgraduate Education Gumbo, Mishack Thiza,Gaotlhobogwe, Michael,Pedzisai, Constantino,Jojo, Zingiswa Mybert Monica,Knaus, Christopher B.,2024-05-13 A deep seated issue persists in postgraduate education one that threatens the relevance of academia in our diverse and evolving world The problem at hand is the Western centric nature of postgraduate education where research paradigms methodologies and theoretical frameworks overwhelmingly reflect a Western worldview This rigid adherence to Western ideologies has left indigenous communities on the periphery of academic discourse denying them the opportunity to engage with their knowledge systems and practices Despite the richness and prevalence of indigenous knowledge the existing educational structure remains a barrier to their inclusion This disconnect is not only an academic concern but also a societal one as it hinders sustainable development and stifles the voices of indigenous scholars and students *Global Perspectives on Decolonizing Postgraduate Education* serves as a compelling solution to the problem at hand It offers a comprehensive roadmap to decolonize postgraduate education infusing it with indigenous approaches paradigms theories and methods Through critical examination and practical strategies this book empowers academics curriculum designers and postgraduate students to embark on a transformative journey

Paphitis,2021-05-12 In order to understand the relationship between social innovation and the reimagining of the knowledge economy necessary to reorient higher education most fully towards the public good we must draw from the experiences of those working on the front lines of change This collection represents diverse voices and disciplines drawing together the critical reflections of academics students and community partners from across South Africa The book seeks to bring together theoretical and practical lessons about how research methods can be used in socially innovative ways to challenge the apartheid of knowledge in higher education and to promote the democratization of the knowledge economy Sustainable Development Goals and Urban Health Abraham R. Matamanda,Verna Nel,2024-09-28 The main aim of this book is to

understand the interplay between the SDGs and urban health This is a critical issue in cities considering the complexity of health issues and how they transcend most SDGs However the SDGs are premised on a broad set of generalised indicators and targets Simultaneously local contexts differ thus a one size fits all understanding of urban health problems is not helpful Therefore the SDGs require Health in All Policies HiAP an approach to public policy across sectors that systematically takes into account the health implications of decisions seeks synergies and avoids harmful health impacts to improve population health and health equity Ramirez Rubio et al 2019 In applying the HiAP concept this book adopts a case study approach and considers the poor neighborhoods of a South African city specifically Bloemfontein part of the Mangaung Metropolitan Municipality Each chapter presented in the book considers a particular SDG and how that goal relates to urban health

Knoetze,Alfred R. Brunsdon,2022-02-07 The higher education landscape has arguably become one of the most arduous to traverse More so in the African context where a host of variables continuously challenge educators to reflect critically on their philosophies and practices as they engage an ever changing audience In this book a critical engagement with theological education in Africa is offered As the book originates from South Africa it is presented as a South African perspective although contributors are situated accross the African continent and abroad The common denominator is that all contributors are in some way or another invested in theological education in Africa The main contribution of this collaborative work is to be

sought in the insights it offers on four main areas of theological education A historical and current orientation on theological education in Africa some paradigm shifts in theological education in Africa ministerial formation needs versus theological education challenges and a critical reflection on elective models and methods The book presents the original and innovative research of scholars for fellow scholars involved in theological higher education as it is grounded in the respective fields of interest of each contributor It contributes to a better understanding of the complex African theological higher education landscape that is also mindful of post COVID 19 realities Methodologically the work draws on a combination of methods including literature studies empirical work and in some cases sectional offerings from doctoral studies as indicated in the various chapters

The Monthly Army List Great Britain. Army,1917 Higher Education Pathways Ashwin, Paul,Case, Jennifer M.,2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues

Leadership for change W.P. Wahl,René Pelser,2020-12-31 This edited volume reveals how the journey of transformation at the University of the Free State UFS became interwoven with student leadership development and global learning The UFS initiated two intersecting co curricular programmes namely the First Year Leadership for Change F1L4C programme in 2010 and the triennial Global Leadership Summit GLS in 2012 Although these programmes changed over time their core focus remained to be the development of transformational student leaders through the creation of global learning spaces From its inception in 2010 to the last GLS in 2018 the UFS global learning project involved 780 students and 259 staff

members from 109 institutions across four continents The goal of this edited volume is to create a deeper understanding of how the UFS F1L4C and GLS programmes enhanced student leadership development through global learning especially in the context of higher education transformation Political Science in South Africa Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon **Environmental Health Perspectives** ,2009-12 A Commentary on the Books of the Old and New Testament. In which are Inserted the Notes and Collections of John Locke ... Daniel Waterland ... Edward, Earl of Clarendon and Other Learned Persons. With Practical Improvements. By William Dodd.
