Community Engagement in Post-Disaster Recovery Graham Marsh, Iftekhar Ahmed, Martin Mulligan, Jenny Donovan, Steve Barton, 2017-09-11 Community Engagement in Post Disaster Recovery reflects a wide array of practical experiences in working with disaster affected communities internationally It demonstrates that widely held assumptions about the benefits of community consultation and engagement in disaster recovery work need to be examined more critically because poorly conceived and hastily implemented community engagement strategies have sometimes exacerbated divisions within affected communities and or resulted in ineffective use of aid funding It is equally demonstrated that well crafted creative and thoughtful programming is possible The wide collection of case studies of practical experience from around the world is presented to help establish ways of working with communities experiencing great challenges The book offers practical suggestions on how to give more substance to the rhetoric of community consultation and engagement in these

areas of work It suggests the need to work with a dynamic understanding of community formation that is particularly relevant when people experience unforeseen challenges and traumatic experiences This title interrogates the concept of community through an extensive review of the literature and explores the ways of working with communities in transition and particularly in their recovery phases through an array of case studies in a range of socioeconomic and political contexts Focused on the concept of community in post disaster recovery solutions an aspect which has received little critical interrogation in the literature this book will be a valuable resource to students and scholars in disaster management as well as humanitarian agencies *Pesticide Residue in Foods* Mohidus Samad Khan, Mohammad Shafiur Rahman, 2017-04-14 This book presents an in depth study of different aspects of pesticide use in food production The text covers the sources of pesticide residues in foods relevant health and environmental concerns degradation of pesticides after their use and available laws and regulations to regulate pesticide use In addition different pesticide management techniques such as reduction of pesticide residues in grains and foods alternatives to conventional pesticides and prospects of organic farming are also covered Pesticide Residue in Foods Sources Management and Control aims to raise awareness of the proper use of these chemicals in order to lower residue in foods and reduce risk for consumers Global Land Use Intensity Change and Its Impact on Food Security Xueru Zhang, Wei Song, Jinmei Lu, Basanta Paudel, Q. Yuan, 2025-09-18 Food security is an important guarantee for world peace and development and has a bearing on the sustainable development and future destiny of humankind The 2023 State of Food Security and Nutrition in the World report released by the Food and Agriculture Organization of the United Nations FAO shows that between 691 and 783 million people worldwide were hungry in 2022 Although the increase in the number of hungry people in the world has slowed down there are still many regions of the world that are sinking deeper into the food crisis If left unchecked the world will not be on track to meet the Sustainable Development Goal of eradicating hunger by 2030 Food security continues to be a global challenge Food security is based on the food system and when the food system is under stress the level of food security is reduced This stress comes from a variety of factors including land use change Land use change and its impacts have become a hotspot and frontier of global change research With the development of human society the structure depth and intensity of land use are constantly changing which directly affects the issue of food security There is a close relationship between regional food security and land use change This Research Topic focuses on land use intensity change and its implications for food security **What Matters for Healthy Ageing** Julie Byles, 2025-02-18 This book describes What Matters for Healthy Ageing largely from the point of view of the individual considering not only the length of their life but also the quality of their life their roles and identity and the things that make life worth living The book embraces the World Health Organisation s framework for healthy ageing being the ability to continue to do the things that matter most Many factors impact on these abilities including social determinants of health intrinsic capacities personal identity and roles such as work and caregiving This book will help

Geriatricians develop practice models to guide the care of older adults by focusing on those things that matter to the older person themselves

Abuse of Dominant Position and Globalization & Protection and Disclosure of Trade Secrets and Know-How Pranvera Këllezi, Bruce Kilpatrick, Pierre Kobel, 2017-05-05 This publication provides an unparalleled comparative analysis of two hot topics in the field of antitrust and unfair competition law with regard to a number of key countries The first part of the book examines the prohibition of abuse of a dominant position and globalization in relation to two broad questions first whether there is consistency between the approaches of different jurisdictions to the notion of abuse and second whether there are too many restrictions on legal rights and business opportunities resulting from the prohibition of abuse of dominance The international report drafted by Professor Pinar Akman reveals that there are as many similarities as differences between the approaches of the twenty one jurisdictions studied and presented in this book This is an invitation to read the excellent international report as well as the reports on specific jurisdictions in order to grasp the variety of arguments and approaches of this antitrust area which may on the surface appear alike The second part gathers contributions on the question of protection and disclosure of trade secrets and know how from various jurisdictions The need for adequate protection of trade secrets has increased due to digitalization and the ease with which large volumes of misappropriated information can be reproduced The comprehensive international report prepared by Henrik Bengtsson brings together these reflections by comparing various national positions The book also discusses the resolutions passed by the General Assembly of the International League of Competition Law LIDC following a debate on each of these topics and includes proposed solutions and recommendations
