Historical Dictionary of Rwanda Aimable Twagilimana,2015-11-06 Blessed with natural beauty and rich vegetation Rwanda is often called the land of a thousand hills le pays des mille collines a reference to its many lush and green rolling hills Moreover for many Rwandans at least in the past Rwanda in spite of its small size is vast in fact it means the universe This idyllic view however sharply contrasts with the sad history of ethnic strife that unfolded since the 1950s the 1959 Hutu Revolution followed by years of anti Tutsi pogroms undemocratic regimes the civil war of 1990 1994 and more significantly the April July 1994 genocide against the Tutsi and the killing of Hutu who opposed the killings The 1994 genocide against the Tutsi remains the most defining single event in contemporary Rwanda and many people in the world today know of this central African nation from the prism of extreme mass violence that sullied the end of the 20th century amid international indifference and has since haunted the world s conscience This second edition of Historical Dictionary of Rwanda contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Rwanda

Et liv som Hee-man Lars Hee, 2015-03-26 *Et liv som Hee-man* er en hudslagsberetning om en enkelt mands personlige udvikling gennem 50 år. Det er en spændende rejse præget af en utrættelig kamp mod den danske jantelov mod familiens arv og sig selv. Det er et karrieremæssigt eventyr, der tager sin begyndelse i 1978 hos det prestigefyldte BMW i England og slutter i 1990 midt i en hektisk kamp om den mest magtfulde position i Toyota Danmark. Det er beretningen om det klassiske springfelt mellem far og søn. Personlig udvikling, livsstil, succeser, skuffelser og ikke mindst kampen for at lande på benene igen er de gennemgående temaer. Tilnavnet Hee-man og analogien til 80-ernes tegneseriefigur bliver utilsigtet den røde tråd. Trods status som universets hersker er der alligevel en ting den virkelige Hee-man frygter: sin fars manglende respekt. Rejsen går kronologisk gennem herlige tidsbilleder: Fra Københavns boligkarrere i 60'erne over Birkerød's forstadsliv i 70'erne via England i 1979 og til de mondæne kvarterer i Hørsholm og Rungsted i 80'erne og 90'erne. Her oplever hovedpersonen glæde og smerte som den fremadstormende søn, den dominerende gtemand og den omsorgsfulde far. Bagagen er fyldt med farverige oplevelser, der bindes sammen af førstelse og tilgivelse af digte og filosofiske livssyn. Herefter er tasken pakket til den næste destination: peace of mind.

The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years, state, provincial, and local governments in the United States and Canada have provided foreign automakers with approximately 480 billion in incentives in order to lure light-vehicle assembly plants to their areas. This has included tax abatements, infrastructure construction, land giveaways, job training programs, and other subsidies. As of early 2015, ten foreign vehicle makers operated 20 light-vehicle plants in developed North America. Despite the fact that all ten of these automakers have pursued a similar pattern—first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America—each has followed its own specific historical development path and has created its own unique growth trajectory. This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and Canada through early 2015. In addition, it chronicles the histories of more than a dozen former automakers and potential future foreign light-motor vehicle assembly plants in the United States and Canada. This includes the first foreign automaker to build its cars in the United States: De Dion Bouton of France in July 1900; the early 20th-century endeavors of Fiat;

Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide
