Asteroid Answers to Ancient Calendar Mysteries Herbert B. Stollorz, 2008-07-03 Ancient calendars found around the world are designed to end one point in time They communicate an urgent warning to everyone alive today Complex bronze and gold clocks with multiple dials are found in museums around the world Why they have such advanced intricacy has stumped scientists for hundreds of years This book reveals why the ancients built so many pyramids observatories as well as those complex gold and bronze clocks with more than one dial It surprised me greatly to discover that their various complex designs in one way or another converge on 21 December 2012 It amazes me that ancient cultures separated by thousands of miles of geography and thousands of years in chronology agree so precisely in the cyclical nature of time history and prophecy which is history written in advance The most famous example is the Mayan Aztec calendar which ends its 25 626 year cycle on that momentous date Some researchers have also found 21 December 2012 in what is called the Bible Code Using very different research methods I discovered it in the Bible's book of Revelation and Daniel's prophecies It is one of the most important dates in the plan of God for all humanity

International Financial Statistics, February 2016 International Monetary Fund. Statistics Dept., 2016-02-04 This February 2016 issue of International Financial Statistics IFS is a standard source of statistics on all aspects of international and domestic finance Borrowings are regarded as a temporary source of funds In order to supplement its quota resources the IMF has the authority to borrow the currency of any member from any source with the consent of the issuer Data on international liquidity are presented in the country tables and in world tables on reserves The international liquidity section in the country tables comprises lines for total reserves minus gold gold holdings other foreign assets and foreign liabilities of the monetary authorities and foreign accounts of other financial institutions IFS publish for most countries of the world current data on exchange rates international liquidity international banking money and banking interest rates prices production international transactions government finance and national accounts
