Zimbabwe's Trajectory V. Masunungure, 2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa s esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009 2013 Virtually all development indicators point in the wrong direction and the crisis of poverty unemployment and the erosion of health education and other public goods continues unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe s Trajectory tells the story of the country s post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world

Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe s extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book

traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country. Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non-Indigenous mining capital to disadvantaged Indigenous citizens and communities. This policy, however, was a response to political, economic, and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000-2003. An intervention, therefore, which promised to address inequalities has thus been hampered by corruption, co-optation, and collusion, which has led to it not only failing to address uneven development but in actual fact worsening the situation. By examining the hidden structures and infrastructures of power, capital, and minerals, and placing extractive industry indigenisation in capitalism, this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular. This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining indigenisation in ways that do not threaten economic and political stability. This book will be of great interest to students and scholars of the extractive industries, natural resource management, African politics, and African development.

Livestock climate action in Zimbabwe Food and Agriculture Organization of the United Nations, Svinurai, W.; Masunda, B.; Ayabagabo, J.D.D; Cabeza, I.L; Kachidza, F.; Kamana, R.; Reppin, S.; Rulli, M.; Uwizeye, A., 2025-04-25. Zimbabwe is advancing climate change adaptation in its livestock sector with key strategies reflected in both its initial and updated nationally determined contributions (NDCs). Although various climate-smart practices are already being implemented through livestock support programs, their contributions to adaptation and mitigation remain largely undocumented, resulting in their omission from the NDCs. To address this, the Department of Livestock Research has introduced a Tier 2 greenhouse gas (GHG) inventory for cattle, allowing for more accurate assessments of mitigation potential and informing the 2025 NDC update. This report brings together insights from literature reviews, policy analysis, and stakeholder consultations to evaluate the current policy landscape for livestock-related climate action. It highlights the sector's growing vulnerability to climate change, including feed scarcity, disease outbreaks, and declining productivity. The report identifies key policy gaps and stresses the importance of capacity building, data-driven planning, and inclusive engagement to enhance climate resilience and reduce emissions in the livestock sector.

Food Systems Profile - Zimbabwe Food and Agriculture Organization of the United Nations, 2022-08-03. Food systems are intimately linked to our lives through the food we eat, our nutrition and health, our livelihoods, jobs, and the environment and natural resources of the planet. The main challenge for food systems is to produce nutritious food for all while preserving our biodiversity and environment and ensuring equitable distribution of wealth. This Food Systems Profile provides a summary of the main food system issues in Zimbabwe and highlights potential solutions for

their sustainable and inclusive transformation It is the result of a systemic analysis and stakeholders consultation that was part of a global assessment of food systems in over 50 countries following a joint initiative by the EU FAO and CIRAD which aims at catalyzing the sustainable and inclusive transformation of food systems

Infrastructures for Peace in Sub-Saharan Africa Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it

Mugabeism after Mugabe? Duri, Fidelis Peter Thomas, Marongwe, Ngonidzashe, Mawere, Munyaradzi, 2019-10-22 Arguably one of the long waited political handover of power globally happened in November 2017 in Zimbabwe when the former and now late 37 year long serving and divisive President Robert Gabriel Mugabe was forced out of power by a combination of forces that were spearheaded by the military s Operation Restore Legacy Mugabe s departure ushered in President Emmerson Dambudzo Mnangagwa s reign This transition has variously been characterised as marking the inauguration of the Second Republic or New Dispensation or as heralding a new Zimbabwe that is Open for Business From the moment of the investiture of President Mnangagwa s

government anticipations of seismic changes to the order of doing business by both the incoming government and the larger Zimbabwean society in general were extremely high. There was an expectation that international cooperation with global partners especially in the West would be restored alongside the reinvigoration of a near comatose domestic economy. But did this ever happen? This volume interrogates the impact of the introduction of the Mnangagwa administration from November 2017. The book seeks to broadly dissect and troubleshoot issues of continuity and change from Mugabe's reign into Mnangagwa's Second Republic. In doing so, the book attempts to respond to the grand question: To what extent has Mugabeism that was the hallmark of Mugabe's reign continued or discontinued into the Second Republic? The volume, which comes as a sequel to *The end of an era: Robert Mugabe and a conflicting legacy*, is sure to generate interest and responses from students and academics in the fields of History, International Studies, Political Science, Sociology, and Social anthropology, as well as from practitioners in the human rights, transitional justice, conflict resolution, security studies, and diplomatic fields.

Multiparty Democracy in Zimbabwe Aaron Rwodzi, 2024-03-26. This book provides a comprehensive account of the tumultuous political landscape of Zimbabwe. Delving into historical and contemporary perspectives, the author analyses the relationship between the ruling ZANU PF party and the opposition, exposing the pervasive influence of foreign powers and their regime change agendas. Amidst western imposed economic sanctions, the book examines how political opposition has struggled to maintain its footing in the face of ZANU PF's rhetoric on preserving the nation's sovereignty. Drawing on the powerful theoretical frameworks of Gramsci's hegemony theory and instrumentalism, the book dissects the constraints on multiparty democracy under ZANU PF's rule. From the party's manipulation of liberation narratives to the subtle intricacies of Mugabeism, a violent and ideological stronghold, the author unveils the tactics employed to maintain power. The chapters uncover the pivotal role played by the military throughout Zimbabwe's history, from the days of the liberation struggle to the shocking events of 2017 when Mugabe's grip on power was diminished by the very force that had propped him up for decades. The author reveals how the military's involvement has thwarted opposition players' attempts to claim power. Boldly challenging the notion that constraints solely rest on ZANU PF, this book calls attention to the shortcomings of opposition parties in navigating Zimbabwe's treacherous political landscape. Using compelling evidence and unparalleled analysis, the book is an essential read for those seeking to understand the intricate web of power manipulation and struggle that has defined Zimbabwe's political journey.
