Mentzel,2021-03-11 Religion and nationalism are both powerful and important markers of individual identity but the relationship between the two has been a source of considerable debate Much if not most of the early work done in Nationalism Studies has been based at least implicitly on the idea that religion as a genealogical carrier of identity was displaced with the advent of secular modernity which was caused by nationalism Or to put it another way national identity and its ideological manifestation nationalism filled the void left in people s self identification as religion retreated in the face of modernity Since at least the late 1990s this view has been increasingly challenged by scholars trying to account for the apparent persistence of religious identities Perhaps even more interestingly scholars of both religion and nationalism have noted that these two kinds of self identification while sometimes being tense as the earlier models explained are also frequently coexistent or even mutually supportive This collection of essays explores the current thinking about the relationship between religion and nationalism from a variety of perspectives using a number of different case studies What all these approaches have in common is their interest in complicating our understandings of nationalism as a primarily secular phenomenon by bringing religion back into the discussion **Understanding Religious Change in Africa and Europe: Crossing Latitudes** Nathan Irmiya Elawa,2020-04-15 This book examines and compares the religious experience of an African group with a European one It offers an ethnographical investigation of the Jukun of north central Nigeria The author also organically weaves into the narrative the Christianization of the Irish in a comparative fashion Throughout he makes the case for an African Christianity connected to a Celtic Irish Christianity and vice versa as different threads in a tapestry This work is a product of a synthesis of archival research in three continents interviews with surviving first generation Christians who were active practitioners of the Jukun indigenous religion and with former missionaries to the Jukun On the Irish side it draws from extant primary sources and interviews with scholars in Celtic Irish studies In addition pictures diagrams and excerpts from British colonial and missionary journals provide a rich contextual understanding of Jukun religious life and practices The author is among the emerging voices in the study of World Christianity who advocate for the reality of poly centres for Christianity This perspective recognizes voices from the Global South in the expansion of Christianity This book serves as a valuable resource for historians anthropologists theologians and those interested in missions studies both scholars and lay readers seeking to deepen their understanding of World Christianity Deep Space Warfare John C.
