A Bold Profession Leslie Anne Hadfield, 2021-05-11 In rural South African clinics Black nurses were charged with administering life saving health care measures despite a lack of equipment and personnel often while navigating the intersections of traditional African healing practices and changing gender relations A Bold Profession is an homage to their dedication to the well being of their communities Development Naivety and Emergent Insecurities in a Monopolised World Mawere, Munyaradzi, 2018-09-17 It is common knowledge that development without security is like a runaway horse Yet development in Africa has been plagued by insecurities since the extractive periods of slave trade and colonialism In spite of political independence and the euphoria of sovereignty as states Africa has failed to address insecurity which continues to loom large and to threaten aspirations towards truly inclusive and sustainable development A consequence has been Africa's development naivety vis vis the monopolisation of development by the predatory elite actors of the global North and their local facilitators To salvage the continent from such predation and the insecurities engendered requires novel and innovative imagination and praxis This book draws from both the haunted landscapes and bitter memories of past exploitations and from the feeding of the insatiable North with African resources and humanity It brings together essays by a concerned generation of scholars driven by the urgent need for radical decolonisation of African development and its legacies of insecurities It is handy to students and practitioners in economics policy studies political science development studies global and African

studies *Lessons To Be Learnt From The World's Great Icon's Life Experiences*. Bheki S.V. Ntshingila, 2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from other's mistakes and life experiences There is a lot we can learn from Madiba's life experience and I don't doubt that the world is also learning something constructive or destructive from you If you are not constructive to others how would you be constructive to yourself Remember greatness is a phenomenon that could be associated with anyone with a positive mind Good better best never let it rest till your good is better and your better is best
