Harcourt School Publishers Social Studies Richard G. Boehm,1998-07 *Teaching Global History* Alan J. Singer,2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it *A Handbook of Leisure Studies* C. Rojek,S. Shaw,A. Veal,2006-06-20 A unique international resource for Leisure Studies in one volume the history organization and central debates in the field of Leisure Studies are defined providing a one stop shop for students and an agenda for future debate and research academics **Our World's Story** ,1997 **A Teaching Guide for the Social Studies** Association of Teachers of Social Studies in the City of New York,1941 **Teaching the Social Studies** Ernest Walter Tieggs,Fay Adams,1959 **A Longitudinal Case Study of a Latina Bilingual Teacher Promoting Academic Literacy Through Social Studies Instruction** Margaret Elizabeth Beddow,2008 *Sanctuaries of the City* Anni Greve,2016-04-01 This book proposes that we can learn from Tokyo about the intrinsic importance of in between realms to an international culture the sanctuaries It argues that certain urban societies are more robust than others because they offer socio spatial capacities that enable the development of skills for coping with modern forms of living It studies places that may open the way to an international culture namely market places venues for performing arts and religious sites which with particular reference to the Durkheimian tradition are considered here in their quality as sanctuaries From its empirical analysis of such sanctuaries in Tokyo this book develops a more general theory about mega cities urban sociability and identity *American Journal of Islamic Social Sciences* 8:3 AbdulHarnid A. The Elementary School Library Collection, Phases 1-2-3 ,1998 *Democratic Peace* Jorg Kustermans,2023-12-05 This book advances the theory that democratic peace does not exclusively refer to an absence of war among democracies but should also be thought of as a particular way of doing thinking and feeling peace Democratic peace is not only then a statistical finding or a rhetorical commonplace invoked to justify foreign policy decisions Rather the notion also refers to a historically and culturally situated practice Taking this reconceptualization as the theoretical point of departure the author develops a historical reconstruction of democratic peace laying bare its historical background and assessing its political significance Tentatively situating it within the cultural history of modernity he reconstructs how the idea of a democratic peace informed diplomatic action at the onset of the Cold War and during the Arab Spring The primary audience are researchers in international relations specifically democratic peace theorists peace researchers cultural sociologists and international practice theorists

Early Childhood Care and Education in Canada Larry Prochner,2011-11-01 Formal programs for the care and education of young children in Canada have a history that goes back almost 200 years yet issues surrounding services for our youngest Canadians continue to be hotly contested as we begin a new century In Canada early childhood care and education are striking for their tremendous diversity on such key issues as curriculum financing and teacher education The range of programs and philosophies can be overwhelming for parents practitioners academics researchers and policy makers alike Larry Prochner and Nina Howe reflect the variation within the field by bringing together a multidisciplinary group of experts to address key issues in the field What programs are currently available and what are their origins How are adults prepared for work in these programs How do children within the programs spend their day What policies guide the programs How has the field reflected on itself through research There are no simple answers but the essays in this collection contribute to a creative reframing of the questions The authors include psychologists sociologists historians teacher educators and social policy analysts *Early Childhood Care and Education in Canada* will be of interest to students teachers and researchers in child study early education policy studies and history With cutbacks to early education programs a shortage of daycare spaces and uncertainty about future levels of support the time is ripe for a close examination of the services we provide for our youngest citizens
