Trajectories of Turkish-Iraqi Relations: New Prospects in Confronting Old Obstacles Watheq Al-Sadoon, The relations between Turkey and Iraq have always been of imperative importance to both countries neither of which can afford to neglect or insufficiently care about it For Turkey there are three main motivations for paying attention to and interacting with developments in Iraq Firstly there are historical and geographical considerations Turks and Iraqis have lived together within the framework of one state for nearly a thousand years the Seljuk Empire the Ottoman Empire and they are now neighboring countries with 378 kilometers of shared borders This heritage is supposed to lay the groundwork for distinguished cooperative paths in their relations The second motivation is the merit of power Turkey is currently a regional power in addition to being an industrial commercial and agricultural country It constantly seeks opportunities for partnership

and economic cooperation with regional states within a win win framework Iraq is a rich country but needs everything all sectors of the Iraqi economy and its current infrastructure require rebuilding and reconstruction and T rkiye finds itself qualified to participate effectively in these roles The third motivation is the protection of Turkish national security and interests and the fight against terrorism The Iraqi arena witnesses the presence of armed organizations that target the security and stability of T rkiye in general and Turkish interests in Iraq in particular Foremost among these terrorist organizations is the Kurdistan Workers Party PKK which is listed as a terrorist organization by T rkiye the US the EU and several other international entities As for Iraq among all its relations with neighboring countries and the region its relations with T rkiye represent a fateful priority with narrow space for political maneuvers and disputes This is because 70% of the water flowing into Iraq originates from Turkish territory and water is the lifeblood of any country On the other hand T rkiye is Iraq s gateway to Europe both in terms of the strategic perspectives of transporting and exporting Iraqi oil and considering the unique geographical positions of both countries in global trade routes as they together form the connecting bridge between Asia and Europe The Turkish political approach towards Iraq during the post 2003 years with its challenging circumstances and crises and the successes it achieved at certain stages represents the optimal period for studying Iraq s position in contemporary Turkish politics This period truly embodies the most important opportunities and the most dangerous challenges and provides a suitable panorama for envisioning the prospects of relations between the two countries We can say that the Iraqi Turkish Development Road Project is an important indicator of the promising new horizons for strategic cooperation between the two countries In the same context we can identify the main current obstacles to the development of Iraqi Turkish relations in three principal issues the deployment of the PKK in northern Iraq the issue of water sharing between the two countries and the issue of exporting oil from the Iraqi Kurdistan Region through Turkish territory and ports without formatting this with the central Iraqi government

The Application of Cybernetic Analysis to the Study of International Politics S.D. Bryen, 2012-12-06 This study could not have been written before Professor Karl Deutsch made his great contribution to political science in his book *The Nerves of Government* In applying the concepts elaborated in that work to the study of international politics it has been necessary to interpret and occasionally add to the concepts developed by Professor Deutsch I do not know whether Deutsch would accept these changes modifications and interpretations Here I can only say that I have attempted to stay in the same spirit that I think motivated Professor Deutsch s pioneering study That spirit is expressed throughout his work It is that all studies of politics and all techniques and models suggested as instrument of political analysis have this purpose that men should be more able to act in politics with their eyes open In completing this work I owe much to many Mrs Susan Schellenberg aided me in identifying sections of an earlier draft that were unclear and helped me test some of the ideas I added to Deutsch s work Mr Frederick Slutsky did some preliminary testing of the action system formulations employed in the third chapter by using quantitative methods Particular gratitude is due to the

committee who saw this manuscript as a dissertation at Tulane University This committee led by Professor Henry L Mason consisted of Professor Warren Roberts Jr Professor James D Cochrane Professor Jean M Danielson and Professor John S Gillespie **Report Number BMI-NLVP-TR-69-1 ... on an Analysis of the Allocation of Federal Budget Resources as an Indicator of National Goals and Priorities to National Aeronautics and Space Administration** Leonard L.
