and may differ between typically developing children and those with autism and other atypical conditions Gaining a greater understanding of these issues is important to increasing our understanding of theory of mind itself the nature of cognitive development the similarities and differences between typically and atypically developing children and whether it may be possible to devise interventions to improve theory of mind either directly or by means of improving other abilities The goal of the current Research Topic is to bring together articles on various aspects of the theory of mind and any concurrent and longitudinal relationships to other cognitive abilities and characteristics These articles may involve studies of children adults or both It is expected that they will primarily include empirical research papers but theoretical articles literature reviews and meta analyses are also welcome

Prince,2009-08-06 It was believed that September 11th would make certain kinds of films obsolete such as action thrillers crackling with explosions or high casualty blockbusters where the hero escapes unscathed While the production of these films did ebb the full impact of the attacks on Hollywood s creative output is still taking shape Did 9 11 force filmmakers and screenwriters to find new methods of storytelling What kinds of movies have been made in response to 9 11 and are they factual Is it even possible to practice poetic license with such a devastating broadly felt tragedy Stephen Prince is the first scholar to trace the effect of 9 11 on the making of American film From documentaries like Fahrenheit 9 11 2004 to zombie flicks and from fictional narratives such as The Kingdom 2007 to Mike Nichols s Charlie Wilson s War 2007 Prince evaluates the extent to which filmmakers have exploited explained understood or interpreted the attacks and the Iraq War that followed including incidents at Abu Ghraib He begins with pre 9 11 depictions of terrorism such as Alfred Hitchcock s Sabotage 1936 and follows with studio and independent films that directly respond to 9 11 He considers documentary portraits and conspiracy films as well as serial television shows most notably Fox s 24 and made for TV movies that represent the attacks in a broader more intimate way Ultimately Prince finds that in these triumphs and failures an exciting new era of American filmmaking has taken shape *Library Journal* Melvil Dewey,Richard Rogers Bowker,L.

The Psycho Records Laurence A. Rickels, 2016-09-06 The Psycho Records follows the influence of the primal shower scene within subsequent slasher and splatter films American soldiers returning from World War II were called psychos if they exhibited mental illness Robert Bloch and Alfred Hitchcock turned the term into a catch all phrase for a range of psychotic and psychopathic symptoms or dispositions They transferred a war disorder to the American heartland Drawing on his experience with German film Hitchcock packed inside his shower stall the essence of schauer the German cognate meaning horror Later serial horror film production has post traumatically flashed back to Hitchcock's shower scene In the end though this book argues the effect is therapeutically finite This extensive case study summons the genealogical readings of philosopher and psychoanalyst Laurence Rickels The book opens not with another reading of Hitchcock's 1960 film but with an evaluation of various updates to vampirism over the years It concludes with a close look at the rise of demonic and infernal tendencies in horror movies since the 1990s and the problem of the psycho as our most uncanny double in close quarters
