17,000 Classroom Visits Can't Be Wrong John V. Antonetti, James R. Garver, 2015-02-20 Most educators are skilled at planning instruction and determining what they will do during the course of a lesson However to truly engage students in worthwhile rigorous cognition a profound shift is necessary a shift in emphasis from teaching to learning Put another way we know that whoever is doing the work is also

doing the learning and in most classrooms teachers are working much too hard Authors John V Antonetti and James R Garver are the designers of the Look 2 Learning model of classroom walkthroughs They've visited more than 17 000 classrooms examining a variety of teaching and learning conditions talking to students examining their work and determining their levels of thinking and engagement From this vast set of data they've drawn salient lessons that provide valuable insight into how to smooth the transition from simply planning instruction to designing high quality student work The lessons John and Jim have learned from their 17 000 and counting classroom visits can't be wrong They share those lessons in this book along with stories of successful practice and practical tools ready for immediate classroom application The authors also provide opportunities for reflection and closure designed to help you consider or reconsider your current beliefs and practices Throughout you will hear the voices of John and Jim and the thousands of students they met as they provide a map for shifting the classroom dynamic from teaching to learning

Resources in Education, 2001-04 **Writing Lesson Level K--Writing Block Planner** Richard Gentry, Ph.D., Jan McNeel, M.A.Ed., 2014-02-01 Incorporate writing instruction in your classroom as an essential element of literacy development while implementing best practices Simplify the planning of writing instruction and become familiar with the Common Core State Standards of Writing [A Cyclical Model of Literacy Learning](#) Adrienne Minnery, Antony T. Smith, 2024 This book introduces the Cycle of Responsibility COR model the next step in the evolution of the Gradual Release of Responsibility model which has been a conceptual mainstay of literacy education for decades This new model shifts the current linear model to a cyclical process of multifaceted interactions that better reflect the complexities of early literacy and with an emphasis on constructing knowledge together in the context of vibrant learning communities Focused on reading writing and word study in the primary grades the COR is put into motion through five key motivators challenge creativity collaboration choice and independence Vignettes demonstrate how to enact COR in classroom contexts This practical resource is based on the authors' shared research and teaching experiences in employing the COR to empower children as literacy learners and teachers as agents of impactful instruction Book Features Presents the Cycle of Responsibility model a new field tested teaching and learning model Moves away from linear task completion to a cyclical collaborative process that reflects the energetic complex and creative world of classrooms Provides a teacher-centric approach that emphasizes shared construction of knowledge and the forces that motivate young learners Includes vignettes from the author's first grade classroom to illustrate ideas in practice as well as a chapter on teacher professional learning This book is a great example of how committed scholars of practice can transport research-based practices into a discourse that speaks to teachers Read it Try it You'll like it From the Foreword by P David Pearson emeritus professor UC Berkeley
