Nordic War Stories Marianne Stecher-Hansen, 2021-02-03 Situated on Europe's northern periphery Denmark Finland Iceland Norway and Sweden found themselves caught between warring powers during World War II Ultimately these nations survived the conflict as sovereign states whose wartime experiences have profoundly shaped their historiography literature cinema and memory cultures *Nordic War Stories* explores the commonalities and divergences among the five Nordic countries examining national historiographies alongside representations of the war years in canonical literary works travel writing and film media Together they comprise a valuable companion that challenges the myth of Scandinavian homogeneity while demonstrating the powerful influence that the war continues to exert on national identities *Plant Breeding Reviews, Volume 41* Irwin Goldman, 2018-03-27 *Plant Breeding Reviews* presents state of the art reviews on plant genetics and the breeding of all types of crops by both traditional means and molecular methods Many of the crops widely grown today stem from a very narrow genetic base understanding and preserving crop genetic resources is vital to the security of food systems worldwide The emphasis of the series is on methodology a fundamental understanding of crop genetics and applications to major crops *Becoming a Christian* Ola Hossjer, 2018-02-21 What influences the decision to become a Christian In the seventeenth century the famous scientist Blaise Pascal viewed this as a game with truth our adversary Pascal argued that we are in the game whether we like it or not Christianity is either true or not and we have to weigh the two alternatives According to Pascal's Wager we have everything to win and nothing to lose by taking a leap of faith and becoming a Christian In this book Ola Hossjer extends Pascal's Wager and argues that we respond to the Christian message very differently There are three main attitudes among people the first group follows Pascal's advice even if evidence before the decision is incomplete the second group requires convincing evidence at first and members of the third group will not become Christians regardless of evidence Hossjer contends that the decision consists of three components a religious disposition from birth evidence and a willingness to act Although we weigh evidence and will differently our priorities may change after a life crisis so that we either reevaluate evidence or become more positive toward Christianity This is illustrated by a number of people who became Christians **The Ashgate Research Companion to Modern Imperial Histories** John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently

saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire World War II ,

Iron Maiden Neil Daniels,2012-07 Looks at the history of the British heavy metal band Iron Maiden from their formation in 1975 through 2011 *The World between Empires* Blair Fowlkes-Childs,Michael Seymour,2019-03-18 The World between Empires presents a new perspective on the art and culture of the Middle East in the years 100 B C A D 250 a time marked by the struggle for control by the Roman and Parthian Empires For the first time this book weaves together the cultural histories of the cities along the great incense and silk routes that connected southwestern Arabia Nabataea Judaea Syria and Mesopotamia It captures the intricate web of influence and religious diversity that emerged in the Middle East through the exchange of goods and ideas And for our current age when several of the archaeological sites featured here including Palmyra Dura Europos and Hatra have been subject to deliberate destruction and looting it addresses the crucial subject of preserving what has been lost and contextualizes the significance of these works on a local and global scale This essential volume features 186 objects of exceptional importance from Europe the Middle East and the United States Readers are taken on a fascinating journey that explores sites of intense political and religious struggles against Roman rule as well as important religious centers and military bulwarks of the Parthian Empire Reaching across two millennia The World between Empires brings vividly to life how individuals and cities in ancient times defined themselves and how these factors continue to resonate today p p1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana The Death of "Why?" Schlesinger,2009-06-26 A look at how Americans are losing their sense of curiosity and skepticism and how some are working to change that The spirit of inquiry is the engine of democracy The democratic process is nothing less than citizens regularly asking what kind of society they want to live in and whom they want to lead them But more and more people are avoiding the whole messy business of questioning Americans are instead being trained to look for ready made answers with potentially dire implications for the health of our society In this impassioned new book Andrea Batista Schlesinger argues that we re besieged by cultural forces that urge us to avoid independent thought and critical analysis The media reduces politics to a spectator sport focusing on polls and personalities rather than issues and ideas Schools teach to standardized tests students learn to fill in the bubbles not open their minds Financial literacy courses have replaced civics classes graduating smart shoppers rather than informed citizens Even the Internet promotes habits that discourage inquiry Regurgitating search engine results becomes a substitute for genuine research and reflection Social networks promote connection rather than engagement With all the information available online over a third of those younger than twenty five say they get no news on a typical day up from twenty five percent in 1998 The situation isn t hopeless Batista Schlesinger spotlights individuals and institutions across the country that are working to renew a healthy sense of curiosity and skepticism particularly in American s youth It is at this point an uphill battle but one well worth undertaking The Death of Why offers both a penetrating socio cultural critique of our current path and a way forward for cultivating inquiry and reinvigorating our democracy From her start in politics as a teenager Andrea Batista Schlesinger has asked the important questions Now she asks her most important are we teaching young people to value inquiry and if not what hope can we have for the future of democracy Katrina vanden Heuvel Publisher The Nation The Death of Why makes the case that we cannot create social change without a culture of questioning We should pay close attention to this brilliant contribution Deepak Bhargava executive director Center for Community Change She asks the right questions at a time when we seem more eager for answers that we don t understand or care about Deborah Meier Senior Scholar New York University author of In Schools We Trust and The Power of Their Ideas and founder of innovative New York and Boston area public schools Totalitarian Dictatorship Daniela Baratieri,Mark Edele,Giuseppe Finaldi,2013-10-08 This volume takes a comparative approach locating totalitarianism in the vastly complex web of fragmented pasts diverse presents and differently envisaged futures to enhance our understanding of this fraught era in European history It shows that no matter how often totalitarian societies spoke of and imagined their subjects as so many slates to be wiped clean and re written on older identities familial loyalties and the enormous resilience of the individual or groups of individuals meant that the almost impossible demands of their regimes needed to be constantly transformed limited and recast **Korean Resources for Pastoral Theology** James Newton Poling,HeeSun Kim,2012-07-19 In a time of life and death challenges to the human spirit global economics nuclear dangers environmental threats and religious polarization and war Christians must look for resources that provide new insights of God

s power and care for all people What are the forms of suffering and hope in the world today and how can Christians respond with healing resources Korean Christians have unique contributions to make to our understanding of pastoral theology and counseling Pastoral counselors and theologians from the United States should look to the South Korean Christian churches and other Asian churches for conversation partners about the nature of care and healing in today s world In this book the authors explore important ideas such as han jeong and salim from Korean history and culture that can inform the healing ministries of the churches
