Vehicle repairs related to safety recalls are critically important and must be performed properly in accordance with TSB procedures. Review this bulletin in its entirety prior to beginning any repair work.

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers must also perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

Access the "Vehicle Information" screen via WEBDCS to identify open recalls.

Description: Certain Hyundai vehicles equipped with 8-speed dual clutch transmissions (DCT) may encounter drivability symptoms, such as rough upshifts, hesitations, or lack of motive power, and/or certain Diagnostic Trouble Codes (DTC) such as P1C2D03.
