Toxic Organic Chemicals in Porous Media Zev Gerstl, Y. Chen, U. Mingelgrin, Bruno Yaron, 2012-12-06 In March 1983 a workshop on Pollutants in Porous Media was hosted by the Institute of Soils and Water of the Agricultural Research Organization in Bet Dagan Israel At this workshop the unsaturated zone between the soil surface and groundwater was the focal point of discussions for scientists from various disciplines such as soil chemists physicists biologists and environmental engineers Since then the problem of soil and water pollution has only worsened as more and more cases of pollution caused by human activities including agriculture and industry have been revealed A great deal of work has been carried out by environmental scientists since 1983 in elucidating the behavior of the many classes of pollutants and the complex physical chemical and biological transformations which they undergo as they move through the soil to the vadose zone and in many cases the groundwater In light of this it was felt that another meeting of specialists from the many disciplines which deal with this subject was necessary and so a Second International Workshop on the Behavior of Pollutants in Porous Media sponsored by IUPAC the International Union of Pure and Applied Chemistry and IAHS the International Association of Hydrological Sciences was organized and held in the Institute of Soils and Water of the Agricultural Research Organization in Bet Dagan Israel during 1987 June The present volume is a selection of the talks

presented at this second workshop and deals only with toxic organic chemicals in porous media
