

RESEARCH PAPER

A research paper is the final product of a culmination of research, critical thought, evaluation,

TYPES OF RESEARCH PAPERS

There are two types of research papers: *Argumentative* and *Analytical*.

Argumentative Research Paper

An *Argumentative Research* paper takes a side and attempts through research, and persuasive argument, to prove that side. The topic and the side the writer is defending are introduced in the introduction of the paper. Topics for argumentative research papers need to be current, controversial, and debatable.

An example thesis for an argumentative research paper might look like this:

Although school uniforms are said to have multiple benefits, disadvantages such as the restriction of creativity, the promotion of conformity over individuality, and the inability to decrease school crime and bullying outweigh the potential benefits.

Analytical Research Paper

An *Analytical Research* paper's purpose is to offer a new perspective on a topic. An *Analytical Research* paper is usually exploratory and evaluative. Therefore, an analytical research paper thesis might look like this:

Sherlock Holmes is often considered the best detective of all time; however, this status would not have been attained without his trusty sidekick Watson. Watson not only functions as a stand-in reader, asking the questions that the reader should ask, but also as a foil for Sherlock to amplify his almost superhuman intelligence and sub-human social skills.

WRITING A RESEARCH PAPER

After you have determined which type of essay you are writing, next is to actually write the essay. The following is a step-by-step process to write a research paper.

1. Pick a topic (If you are having trouble finding a topic for a research paper, visit the library, and ask for an opposing viewpoints book, or visit the Writing Center and brainstorm with a tutor for a few minutes.
2. Identify the audience
 - The audience of your paper will have a significant impact on the content of your paper. Be sure to ask the following questions:
 - a. Who is my general audience?
 - b. What audience will be most interested in my work?
 - c. What about my topic interests my audience?
 - d. What counter arguments should I be prepared to answer
3. Where do I begin?
 - a. Research – do a significant amount of research on your topic so you understand what you are writing about
 - b. Outline – create a bulleted list of the topics and points you wish to cover in your essay
 - c. Draft - Expond on your bullet points. Make them into sentences and paragraphs
 - d. Revise, Edit, and Proofread – Go through your rough draft and fix content mistakes and clear up any confusion
 - e. Final Draft – fix any and all grammar issues

Student-Led Peer Review Kimberly A. Lowe, Liv Cummins, Summer Ray Clark, Bill Porter, Lisa Spitz, 2023-07-03 Student-led peer review can be a powerful learning experience for both giver and receiver, developing evaluative judgment, critical thinking, and collaborative skills that are highly transferable across disciplines and professions. Its success depends on purposeful planning and scaffolding to promote student ownership of the process. With intentional and consistent implementation, peer review can engage students in course content and promote deep learning while also increasing the efficiency and effectiveness of faculty assessment. Based on the authors' extensive experience and research, this book provides a practical introduction to the key principles, steps, and strategies to implement student peer review, sometimes referred to as peer critique or workshopping. It addresses common challenges that faculty and students encounter. The authors offer an easy-to-follow and rigorously tested three-part protocol to use before, during, and after a peer review session, and advice on adapting each step to individual courses. The process is applicable across all disciplines, content types, and modalities, face-to-face and online, synchronous and asynchronous. Instructors can guide students in peer review in one course, across two or more courses that are team-taught, or across programs or curriculums. When instructors, students, and university stakeholders create a culture of peer review, it enhances learning benefits for students and allows faculty to share pedagogical resources. Student peer review is a high-impact pedagogy that is easily implemented, inculcates lifelong learning skills in students, and relieves the assessment burden on faculty as students collaborate to improve their own work.

The Procrastination Cure: Mastering Momentum Stephen Wing, Welcome! You're holding in your hands a guide not just to overcoming procrastination but to unlocking your full potential. This book isn't a simplistic guide to better time management; it's a journey of self-discovery, a deep dive into the psychology of delay, and a practical roadmap to mastering your momentum. For years, you may have struggled with procrastination, feeling the weight of unfinished tasks, missed deadlines, and the constant nagging sense of inadequacy. You might have tried various methods, from simple to-do lists to complex scheduling systems, only to find yourself still trapped in the cycle of delay. The truth is, procrastination is more complex than simply lacking willpower. It's often a symptom of deeper emotional issues: fear of failure, perfectionism, or even a misguided attempt at self-protection. *The Procrastination Cure: Mastering Momentum* offers a holistic approach to conquering procrastination. We'll explore the underlying psychological mechanisms driving your behavior, equipping you with the self-awareness to identify your unique procrastination patterns and triggers. You'll learn to challenge

the limiting beliefs that perpetuate your procrastination replacing them with empowering self talk and a growth mindset We go beyond theory providing you with a comprehensive toolkit of evidence based strategies From the Pomodoro Technique to micro goal setting from time blocking to mindfulness practices you ll discover practical methods to improve your time management increase your focus and build lasting productive habits This book isn t about self criticism or judgment it s about self compassion and understanding We ll guide you towards creating a supportive relationship with yourself allowing you to approach your challenges with empathy and encouragement rather than self condemnation This is a journey of personal growth where you ll develop resilience enhance your self esteem and ultimately create a life aligned with your aspirations Are you ready to break free from the chains of procrastination and embrace a more productive and fulfilling life Let s embark on this transformative journey together *Talking Equity in Polarized Times* Meagan Call-Cummings, Kristien Zenkov, Jeff Keller, 2024-11-26 How can teachers help students navigate tough topics in an increasingly politicized world Featuring perspectives from teachers and students across the country this unique book provides hope applicable knowledge and practical skills for teachers to address a range of current issues including race LGBTQIA advocacy diversity and equity civic engagement ability and disability school safety social emotional learning immigration and environmental justice Each chapter addresses one of those controversial issues and examines how teachers are grappling with it in their own classrooms Each chapter is also informed by youths insights drawn from the authors work with the Youth Research Council and the Through Students Eyes project Features include suggested resources reflection questions and talking points to support teachers in framing discussions of the topic positively and accurately With the voices and skills in this book you ll be able to work with these issues no matter your own teaching contexts Thought and Knowledge Diane F.
