André Cossette, 2015-08-21 This comprehensive forensics textbook includes everything for the beginning to intermediate 7th 12th grade debater and forensics competitor Teachers across the US and Japan have used the *Art of Debate* textbooks to teach high school and middle school debate Anyone who is looking for a textbook to help novices to intermediate competitive debaters should look no further This book also is useful for anyone who seeks to be a more persuasive and eloquent public speaker The book teaches basic debate skills Public Forum debate Lincoln Douglas debate Policy Cross Examination debate Congressional debate and eight different speech events Impromptu Extemporaneous Expository Oratory Dramatic Interpretation Dual

Interpretation Oral Interpretation Interpretive Reading and Humorous Interpretation This book contains all you need to improve your debating and speechmaking skills and get you ready for your next speech or forensics competition

Introduction to Video Search Engines David C. Gibbon, Zhu Liu, 2008-09-20 The evolution of technology has set the stage for the rapid growth of the video Web broadband Internet access is ubiquitous and streaming media protocols systems and encoding standards are mature In addition to Web video delivery users can easily contribute content captured on low cost camera phones and other consumer products The media and entertainment industry no longer views these developments as a threat to their established business practices but as an opportunity to provide services for more viewers in a wider range of consumption contexts The emergence of IPTV and mobile video services offers unprecedented access to an ever growing number of broadcast channels and provides the flexibility to deliver new more personalized video services Highly capable portable media players allow us to take this personalized content with us and to consume it even in places where the network does not reach Video search engines enable users to take advantage of these emerging video resources for a wide variety of applications including entertainment education and communications However the task of information extraction from video for retrieval applications is challenging providing opportunities for innovation This book aims to first describe the current state of video search engine technology and second to inform those with the requisite technical skills of the opportunities to contribute to the development of this field Today's Web search engines have greatly improved the accessibility and therefore the value of the Web
