Delacroix's Moroccans Jennifer Olmsted, 2024-12-24 *The Women of Algiers in Their Apartment* is arguably Eugène Delacroix's best known work from his trip to Morocco in 1832 and the attention scholars have paid to it has obscured a crucial fact about Delacroix's Moroccan subjects most of his paintings of North Africa depict men rather than women After serving as a diplomat's companion on a mission to Morocco Delacroix went on to devote over three quarters of his massive North African oeuvre to the military prowess effective leadership equestrian virtuosity and elegant dress of Moroccan men Using the evidence of his writings sketches and paintings Olmsted argues that rather than embodying a typical colonialist fantasy Delacroix's paintings of Moroccan men instead show his subjects as models of heroic masculinity and political sovereignty a position that ran counter to prevailing French attitudes toward North Africans In this way Delacroix's Moroccans intervenes in the discourse of imperialism to examine the multiple heterogeneous features of cultural response and provides nuanced readings of the artist's work that support the idea that European constructions of non-European cultures were not monolithic Olmsted's multifaceted analysis creates a powerful and original understanding of Delacroix's Moroccan oeuvre and a counternarrative to the colonialist imagery of his era Through close attention to Delacroix's paintings drawings and writings as well as their historical and political contexts this book illuminates the artist's practice and offers a fresh avenue for assessing colonialism and art produced within colonial contexts

countryside they have left l arubiya or the rural In this book Alessandra Ciucci takes us inside the lives of Moroccan workers unpacking the way they share a particular musical style of the rural to create a sense of home and belonging in a foreign and inhospitable nation Along the way she uncovers how this culture of belonging is not just the product of the struggles of migration but also tied to the reclamation of a noble and virtuous masculine identity that is inaccessible to Moroccan migrants in Italy The Voice of the Rural allows us to understand the contemporary experiences of migrant Moroccan men by examining their imagined relationship to the rural through sound shedding new light on the urgent issues of migration and belonging

Magic's Reason Graham M. Jones, 2017-12-06 In *Magic s Reason* Graham M Jones tells the entwined stories of anthropology and entertainment magic The two pursuits are not as separate as they may seem at first As Jones shows they not only matured around the same time but they also shared mutually reinforcing stances toward modernity and rationality It is no historical accident for example that colonial ethnographers drew analogies between Western magicians and native ritual performers who in their view hoodwinked gullible people into believing their sleight of hand was divine Using French magicians engagements with North African ritual performers as a case study Jones shows how magic became enshrined in
