It represents a continuing effort by WHO to support member states with global information in their efforts to reduce the harmful use of alcohol and its health and social consequences. Publisher's description. **Public Health Reports**, 2009 Ethics in the Alcohol Industry S. Robinson, A. Kenyon, 2009-07-30 A close look at the ethical and social responsibilities of the alcohol industry in the 21st Century. It begins with a whistle stop tour of the historical developments of alcohol. It then critiques the legislative and voluntary codes surrounding the advertising industry, popular culture, religious groups, Government, and local authorities. **Alcohol** Peter Boyle, Paolo Boffetta, Albert B. Lowenfels, Harry Burns, Otis Brawley, Witold Zatonski, Jürgen Rehm, 2013-03-07 Alcohol has always been an issue in public health, but it is currently assuming increasing importance as a cause of disease and premature death worldwide. *Alcohol Science, Policy, and Public Health* provides an interdisciplinary source of information that links together the usually separate fields of science, policy, and public health. This comprehensive volume highlights the importance of bringing scientific knowledge to bear in order to strengthen and develop alcohol public policy. The book looks at the historical evolution of alcohol consumption in society, key early studies of alcohol and disease, and the cultural and social aspects of alcohol consumption. It then goes on to cover the chemistry and biology of alcohol, patterns of consumption, gender, and age-related issues, alcohol and injury, alcohol and cancer, and non-malignant disease, and various current therapeutic aspects. The book concludes with a section on alcohol policy, looking at issues of poverty, the availability of alcohol, and alcohol control measures. This major reference, written by international leaders in the fields of alcoholism and alcohol policy, provides a comprehensive study of one of the foremost health problems in the world and represents the highest standards of research within the field.
