A History of Literature in the Caribbean A. James Arnold,1997-08-15 Cross Cultural Studies is the culminating effort of a distinguished team of international scholars who have worked since the mid 1980s to create the most complete analysis of Caribbean literature ever undertaken Conceived as a major contribution to postcolonial studies cultural studies cultural anthropology and regional studies of the Caribbean and the Americas Cross Cultural Studies illuminates the interrelations between and among Europe the Caribbean islands Africa and the American continents from the late fifteenth century to the present Scholars from five continents bring to bear on the most salient issues of Caribbean literature theoretical and critical positions that are currently in the forefront of discussion in literature the arts and public policy Among the major issues treated at length in Cross Cultural Studies are The history and construction of racial inequality in Caribbean colonization The origins and formation of literatures in various Creoles The gendered literary representation of the Caribbean region The political and ideological appropriation of Caribbean history in creating the idea of national culture in North and South America Europe and Africa The role of the Caribbean in contemporary theories of Modernism and the Postmodern The decentering of such canonical authors as Shakespeare The vexed but inevitable connectedness of Caribbean literature with

both its former colonial metropolises and its geographical neighbors. Contributions to Cross Cultural Studies give a concrete cultural and historical analysis of such contemporary critical terms as hybridity, transculturation, and the carnivalesque, which have so often been taken out of context and employed in narrowly ideological contexts. Two important theories of the simultaneous unity and diversity of Caribbean literature and culture propounded by Antonio Benítez Rojo and Édouard Glissant receive extended treatment that places them strategically in the debate over multiculturalism in postcolonial societies and in the context of chaos theory. A contribution by Benítez Rojo permits the reader to test the theory through his critical practice. Divided into nine thematic and methodological sections followed by a complete index to the names and dates of authors and significant historical figures discussed, *Cross Cultural Studies* will be an indispensable resource for every library and a necessary handbook for scholars, teachers, and advanced students of the Caribbean region.

Chinese Shock of the Anthropocene Kwai-Cheung Lo, Jessica Yeung, 2019-05-07 This book examines China's role and its cultural productions in the process of environmental destruction and transformation, focusing on how various cultural media play a significant role in shaping and reproducing Chinese subject formation in relation to changing ecological conditions. It argues that China, under the leadership of Xi Jinping, vowed in 2017 to play a leading role in preserving the planet for the future, but many of its actions, such as its Belt and Road initiative, have aroused apprehension rather than inspired confidence. Against this backdrop of environmental concern, this volume brings together a cutting-edge critical analysis of Chinese literature, music, and cinema, offering a transdisciplinary and comprehensive vision of Chinese arts and literature under the current conditions of the Anthropocene. This volume sets a high scholarly standard in the field and constitutes a valuable reference for scholars and students of Chinese cultural studies, Chinese studies, and Anthropocene studies.
