The Routledge Companion to Biofiction Lucia Boldrini, Laura Cernat, Alexandre Gefen, Michael Lackey, 2025-03-31

The Routledge Companion to Biofiction provides readers with the history origins and evolution of this popular genre. Featuring contributions from leading scholars in the field, this authoritative collection foregrounds analyses of biofiction's core foundations through contemporary debates. The volume is organized into seven sections: Histories of biofiction; Theoretical reflections on biofiction; Biofiction national models and trans national constructions; Biofiction as political intervention; Biofictional case studies; Activating lives: early modern women and Authorial reflections. This groundbreaking collection features works that refine our understanding of the genesis and evolution of biofiction, theorize its unique and distinctive modes of signifying, reflect on its value for the future, and social justice, chart new approaches for doing biofictional analysis, and offer insights from authors of biofiction into the creative process. This is the first collection to bring together the two main schools of interpreting biofiction: the Francophone and Anglophone, while also shedding light on biofictions in many languages from or about many continents and offering a platform to established and new voices alike. It will be essential reading for students as well as advanced scholars interested in biographical fiction.
