

Study Guide - Grade 9 Science PAT

This is a list of some things you'll want to be able to do for the Science PAT. This is not a complete list of everything that will be on the exam.

Unit A: Biological Diversity

Students must be able to:

- Recall all their definitions
- Identify and describe variations among and within species
- Describe aspects of a species' niche
- Explain how an organism is adapted to life in its ecosystem
- Provide examples of symbiotic relationships
- Explain how one species' survival is linked to other species
- Clarify given symbiotic relationships as mutualism, commensalism, or parasitism
- Explain how species variation helps with species survival
- Distinguish between sexual and asexual reproduction
- Describe mechanisms of asexual production such as binary fission, budding, and spore production
- Describe mechanisms of sexual production
- Give examples of organisms that show both sexual and asexual production
- Describe the formation of a zygote and embryo in plant and animal production
- List examples of variation of characteristics within a species, including both discrete and continuous variation
- Identify examples of transmitted characteristics to offspring that are the same as one or both parents, intermediate between parents, or different from both parents
- Differentiate between heritable and non-heritable characteristics
- Identify examples of dominant vs recessive characteristics
- Generally explain the role and relationship of chromosomes, genes, and DNA
- Identify differences in mitosis vs meiosis
- List advantages and disadvantages of sexual and asexual production
- Explain the difference between natural and artificial selection
- Simply describe a few genetic technologies
- Describe the relative amounts of different species types on Earth and in different environmental regions
- Explain how environmental factors and changes can result in changing biodiversity, extinction, and extirpation
- Evaluate how successful specific local or global strategies are at minimizing loss of species diversity
- Analyze the use of biotechnology in environmental, agricultural, or forest management for potential impacts and issues
- Analyze graphs related to population abundance and change over time

Unit B: Matter and Chemical Change

Students must be able to:

- Recall all their definitions
- Investigate and describe physical and chemical properties of materials (melting and boiling point, solubility, conductivity, hardness, lustre, etc.)
- Clarify a given material as: pure substance, solution, mechanical mixture, metal, or non-metal
- Evaluate a change in material properties to decide if a chemical reaction (chemical change) has taken place

Author and Title Index ,1975 *Canadian Books in Print* ,2001 **Global Citizenship Education** ,2008-01-01 The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities The essays in the book explore these issues and the emergent world ideologies of globalism as well as present territorial conflicts ethnic tribal and nationalist rivalries problems of increasing international migration and asylum growing regional imbalances and increasing world inequalities Contributors to this collection each on their own way argues that global citizenship education needs to project new values to reality test and debate the language concepts and theories of global citizenship and the proto world institutions that seek to give expression to nascent aspirations for international forms of social justice and citizen participation in world government Many of the contributors argue that global citizenship education offers the prospect of extending the liberal ideologies of human rights and multiculturalism and of developing a better understanding of forms of post colonialism One thing is sure as the essays presented in this book demonstrate so clearly there can be no one dominant notion of global citizenship education as notions of global citizenship and education are all contested and open to further argument and revision Global citizenship education does not name the moment of global citizenship or even its emergence so much as the hope of a form of order where the rights of the individual and of cultural groups irrespective of race gender ethnicity or creed are observed preserved and protected by all governments in order to become the basis of citizen participation in new global spaces that we might be tempted to call global civil society **Canadian Books in Print 2002** Edited by Butler Marian,Marian Butler,2002-02 Containing more than 48000 titles of which approximately 4000 have a 2001 imprint the author and title index is extensively cross referenced It offers a complete directory of Canadian publishers available listing the names and ISBN prefixes as well as the street e mail and web addresses **National Union Catalog** ,1980 Includes entries for maps and atlases
