Effluent Standards and Water Quality Information Advisory Committee United States. Effluent Standards and Water Quality Information Advisory Committee,1975 *The Historical Foundations of Grotius' Analysis of Delict* Joe

Sampson,2017-11-01 The Historical Foundations of Grotius Analysis of Delict explores the origins of a generalised model of liability for wrongdoing in the history of European private law Using Grotius as its focal point it analyses the extent to which earlier civilian and theological doctrine shaped his views It divides Grotius approach into three elements the infringement of a right fault and remediation and traces the development of parallel concepts in earlier traditions It argues that Grotius was influenced by the writings of Thomists to a far greater extent than has previously been acknowledged virtually eclipsing any sign of civilian influence except where Romanist learning had already been incorporated into theological doctrine *The Judicial Assessment of Expert Evidence* Déirdre Dwyer,2008-12-18 Deirdre Dwyer examines how a court can decide when to accept an expert s opinion focusing on English civil justice Visible Variation Pamela M. Perniss,Roland Pfau,Markus

Steinbach,2008-09-25 It has been argued that properties of the visual gestural modality impose a homogenizing effect on sign languages leading to less structural variation in sign language structure as compared to spoken language structure However until recently research on sign languages was limited to a number of Western sign languages Before we can truly answer the question of whether modality effects do indeed cause less structural variation it is necessary to investigate the similarities and differences that exist between sign languages in more detail and especially to include in this investigation less studied sign languages The current research climate is testimony to a surge of interest in the study of a geographically more diverse range of sign languages The volume reflects that climate and brings together work by scholars engaging in comparative sign linguistics research The 11 articles discuss data from many different signed and spoken languages and cover a wide range of topics from different areas of grammar including phonology word pictures morphology pronouns negation and auxiliaries syntax word order interrogative clauses auxiliaries negation and referential shift and pragmatics modal meaning and referential shift In addition to this the contributions address psycholinguistic issues aspects of language change and issues concerning data collection in sign languages thereby providing methodological guidelines for further research Although some papers use a specific theoretical framework for analyzing the data the volume clearly focuses on empirical and descriptive aspects of sign language variation

Climate Agendas and Instability

Frank Wendler,2024-10-25 This book examines the expansion of climate governance frameworks in the EU and US and their re framing as part of green industrial programs Addressing research on how vectors of stability and punctuation interact to advance or block policy progress the book breaks new ground by presenting a theoretical framework suitable to integrate insights of comparative research and sui generis accounts of climate policy as a variable and multi dimensional issue In its empirical part it compares two contrasting trajectories of climate policy making namely the adaptation of the European Green Deal agenda to the exogenous shocks of the Covid pandemic and war in Ukraine through its NextGen and REPowerEU programs and the launch of green industrial policies targeting infrastructure Bipartisan Infrastructure Law and inflation reduction Inflation Reduction Act in the US Finally discussing to what degree the EU and US show signs of convergence towards a new type of climate policy from opposed starting points the book identifies future research agendas around the topics of climate policy integration and politicization This book will be of key interest to scholars students and practitioners of climate change governance EU and US politics environmental politics and comparative politics

Statistical

Implicative Analysis Régis Gras,Einoshin Suzuki,Fabrice Guillet,Filippo Spagnolo,2008-04-29 Statistical implicative analysis is a data analysis method created by R gis Gras almost thirty years ago which has a significant impact on a variety of areas ranging from pedagogical and psychological research to data mining Statistical implicative analysis SIA provides a framework for evaluating the strength of implications such implications are formed through common knowledge acquisition techniques in any learning process human or artificial This new concept has developed into a unifying methodology and has

generated a powerful convergence of thought between mathematicians statisticians psychologists specialists in pedagogy and last but not least computer scientists specialized in data mining This volume collects significant research contributions of several rather distinct disciplines that benefit from SIA Contributions range from psychological and pedagogical research bioinformatics knowledge management and data mining Data Analysis Using Microsoft Excel Ash Narayan Sah,
