Official Gazette of the United States Patent and Trademark Office ,2005 **The Realities of Adaptive Groundwater Management** William Blomquist,2021-03-01 This book has three primary objectives The first objective is to provide scholars with a more realistic view of adaptive management without arguing against adaptive management Adaptive management is necessary as well as desirable but it is not easy and demonstrating that through the Chino Basin experience is an important goal The second objective is to provide practitioners with encouraging yet cautionary lessons about the challenges and benefits of an adaptive approach in similar fashion as the first objective the goal here is to endorse the adaptive approach but in a clear eyed manner that clarifies how hard it is and how much it requires A third objective is to show all audiences that resource governance systems can fail change and succeed There is no such thing as an ideal institutional design that is guaranteed to work rather making institutional arrangements work entails learning and adjustment when they begin to show problems as they inevitably will Hearing on National Defense Authorization Act for Fiscal Year 2013 and Oversight of Previously Authorized Programs Before the Committee on Armed Services, House of Representatives, One Hundred Twelfth Congress, Second Session United States.
