Anchor Chart For Kindergarteners:

Making the Most of Small Groups Debbie Diller, 2023-10-10 Author Debbie Diller turns her attention to small reading groups and the teacher's role in small group instruction. *Making the Most of Small Groups: Differentiation for All* grapples with difficult questions regarding small group instruction in elementary classrooms such as: How do I find the time? How can I be more organized? How do I form groups? How can I differentiate to meet the needs of all of my students? Structured around the five essential reading elements: comprehension, fluency, phonemic awareness, phonics, and vocabulary, the book provides practical tips, sample lessons, lesson plans, and templates, suggestions for related literacy work stations, and connections to whole group instruction. In addition to ideas to use immediately in the classroom, Diller provides an overview of relevant research and reflection questions for professional conversations.

Strategies that Work Stephanie Harvey, Anne Goudvis, 2007 Describes strategies teachers can use to promote reading comprehension in students from kindergarten through eighth grade and includes examples of student work, illustrations, and other reference tools.

Starting with Comprehension Andie Cunningham, Ruth Shagoury, 2005 It is never too early to start comprehension instruction. In fact, reading begins with meaning making. Andie Cunningham and Ruth Shagoury designed a reading program for five and six year olds based on this premise. Most of the students in Andie's Portland, Oregon kindergarten class have little or no alphabet knowledge when they enter the classroom in the fall. English is a second or third language for many of the children in this low income neighborhood. Through research-based principles, carefully structured routines, and innovative activities, even the youngest learners can develop comprehension skills from their first days in school. The children in *Starting with Comprehension* are grappling with school culture for the first time and learning to work with classmates who speak a variety of different languages. These emergent readers learn to present their understanding of what they read through writing, talk, movement, and art. Kindergartners and preschoolers are different from readers who know how to decode texts. Andie and Ruth show how comprehension skills can be nurtured and strengthened even before decoding begins. In this classroom, meaning making becomes part of community building as children link reading, thinking, and communicating.

Spaces & Places Debbie Diller, 2008 In this book, you'll find a wealth of full color photos from all sorts of classroom spaces in PreK-5th grade. There's before and after pictures and step by step processes outlined for organizing your furniture and cabinets, setting up your room space by space, and using your walls thoughtfully.
