Tarpey,2018-09-11 In *Developing Professional Memory* the author examines narratives from progressive and radical London based English teachers who began their careers between 1965 and 1975 English teaching in this period which the author defines as a cauldron of competing and contested currents is often portrayed negatively in dominant discourses around the subject The teachers narratives however provide a much more nuanced and positive story By recovering and documenting the collective Professional Memory of English teachers in a particular conjuncture this volume offers a compelling practitioner account of events and developments and proves that learning from Professional Memory has transformative potential The author argues that by critically confronting narratives practices and existing conjunctural circumstances current practitioners might develop greater agency in debates around their professional roles and responsibilities

Answering the Music Man B. Kyle Keltz,Tricia Scribner,2020-05-29 Dan Barker ex preacher and co founder of the Freedom From Religion Foundation travels widely arguing in debates and speaking on his beliefs that Christianity is false God does not exist and the Bible is filled with errors and mythology He has been touted as one of America s leading atheists Yet close examination of his arguments shows that Barker s reasons for disbelief are poorly reasoned and miss the mark as they are aimed at a mistaken caricature of Christian theism *Answering the Music Man* exposes Barker s misunderstandings of Christianity and provides compelling answers to Barker s arguments Handbook of Research on Industrial Informatics and Manufacturing Intelligence: Innovations and Solutions Khan, Mohammad Ayoub,Ansari, Abdul Quaiyum,2012-03-31 This book is the best source for the most current relevant cutting edge research in the field of industrial informatics focusing on different methodologies of information technologies to enhance industrial fabrication intelligence and manufacturing processes Provided by publisher Engineering Vibroacoustic Analysis Stephen A. Nefske,2016-05-02 The book describes analytical methods based primarily on classical modal synthesis the Finite Element Method FEM Boundary Element Method BEM Statistical Energy Analysis SEA Energy Finite Element Analysis EFEA Hybrid Methods FEM SEA and Transfer Path Analysis and Wave Based Methods The book also includes procedures for designing noise and vibration control treatments optimizing structures for reduced vibration and noise and estimating the uncertainties in analysis results Written by several well known authors each chapter includes theoretical formulations along with practical applications to actual structural acoustic systems Readers will learn how to use vibroacoustic analysis methods in product design and development how to perform transient frequency deterministic and random and statistical vibroacoustic analyses

and how to choose appropriate structural and acoustic computational methods for their applications The book can be used as a general reference for practicing engineers or as a text for a technical short course or graduate course **SAEQ Issue 06**, 2015-03-28 Issue 06 Jan Feb Mar 2015 Physical Mesomechanics And Spectrum Of Metal Surface Layer Excitation At Friction Process With Heavy Loading A Kh Janahmadov N G Javadov The paper reviews the physical mesomechanics of structurally inhomogeneous media developed on the verge of continuum mechanics macro level and physics of plasticity and strength of deformable solids micro level According to the concept of the structural level of deformation at friction the surface layer of deformable solids is an independent leading functional subsystem It is shown that with an increase of the deformation level of material it develops autonomous processes plasticity waves inside which have a significant impact on the stagnation of plasticity flow localization and the destruction of contacting bodies at the meso level the deformation has a transitional rotational character Influence Of Wingtips On Induced Drag Force Of Rectangular Wing R M Jafarzade M H Ilyasov J N Huseynli The paper examines the influence of wingtips on the inductive resistance of rectangular wing through the mathematical model based on the distribution of vortices Assuming that the free vortices originate at the wingtips the imaginary shape vortex diagram is built above the wing at the height of wingtips The air is considered to be incompressible Referring to the Biot Savart formula the expression for the inductive velocity generated by the free vortices and their average values along the wingspan are found The induced drag force and its coefficient are determined through the average bevel angle of flow The inductive drag force is analytically proven Application Of Coordination Polymers To Increase The Reservoir Oil Recovery B T Usabaliev E E Ramazanova F T Murvatov E N Aliyev Y S Salakhova M K Munshieva F B Aliyev A K Rzaeva It is first time when an application of composite materials BAF 1 BAF 2 on the basis of the coordination polymers is studied to improve the rheological properties of crude oil It has been established that composite materials reduce the oil viscosity by 60 70% and also have a positive effect on other properties Relaxation Of The Non Equilibrium Field Effect In In_2O_3 SiO_2 Si SiO_2 Al Structures At The Non Equilibrium Depletion Regimes A Z Badalov Sh G Zeynalova The article studies in detail the effect of various factors on the screening time of In_2O_3 SiO_2 Si SiO_2 Al structures the influence of the lighting temperature and the supply voltage on the duration of the non equilibrium non stationary depletion process It is also examines the dependence of the current depolarization on the power supply impulse duration with and without exposure to the LED light The Theoretical Analysis Of Crude Oil Vapour Pressure And Cavitation Technologies Studying Of Physical And Chemical Properties Of Transported Oil In The Course Of Cavitation S K Gezalov We have worked out the criterion of fuzzy interval for minimizing target function with fuzzy coefficient The given criterion shows adaptability of genetic algorithms for building pare to optimal solutions of multi objective problem of transport logistics with fuzzy coefficient of objectives Critical Issues for the Development of Sustainable E-health Solutions Nilmini Wickramasinghe, Rajeev Bali, Reima Suomi, Stefan Kirn, 2011-11-23 Pervasive healthcare is an emerging research discipline focusing on the development and application of pervasive and

ubiquitous computing technology for healthcare and wellness Pervasive healthcare seeks to respond to a variety of pressures on healthcare systems including the increased incidence of life style related and chronic diseases emerging consumerism in healthcare need for empowering patients and relatives for self care and management of their health and need to provide seamless access for healthcare services independent of time and place Pervasive healthcare may be defined from two perspectives First it is the development and application of pervasive computing or ubiquitous computing ambient intelligence technologies for healthcare health and wellness management Second it seeks to make healthcare available to anyone anytime and anywhere by removing locational time and other restraints while increasing both the coverage and quality of healthcare This book proposes to define the emerging area of pervasive health and introduce key management principles most especially knowledge management its tools techniques and technologies In addition the book takes a socio technical patient centric approach which serves to emphasize the importance of a key triumvirate in healthcare management namely the focus on people process and technology Last but not least the book discusses in detail a specific example of pervasive health namely the potential use of a wireless technology solution in the monitoring of diabetic patients

Grappling with the Multifaceted World of the DNA Damage Response Antonio Porro, 2017-01-10 DNA damage is a major threat to genomic integrity and cell survival It can arise both spontaneously and in response to exogenous agents DNA damage can attack most parts of the DNA structure ranging from minor and major chemical modifications to single strand breaks SSBs and gaps to full double strand breaks DSBs If DNA injuries are mis repaired or unrepaired they may ultimately result in mutations or wider scale genome aberrations that threaten cell homeostasis Consequently the cells elicit an elaborate signalling network known as DNA damage response DDR to detect and repair these cytotoxic lesions This Research Topic was aimed at comprehensive investigations of basic and novel mechanisms that underlie the DNA damage response in eukaryotes

Bibliographic Index, 2010 [Metaheuristics for Finding Multiple Solutions](#) Mike Preuss, Michael G. Epitropakis, Xiaodong Li, Jonathan E. Fieldsend, 2021-10-22 This book presents the latest trends and developments in multimodal optimization and niching techniques Most existing optimization methods are designed for locating a single global solution However in real world settings many problems are multimodal by nature i e multiple satisfactory solutions exist It may be desirable to locate several such solutions before deciding which one to use Multimodal optimization has been the subject of intense study in the field of population based meta heuristic algorithms e g evolutionary algorithms EAs for the past few decades These multimodal optimization techniques are commonly referred to as niching methods because of the nature inspired niching effect that is induced to the solution population targeting at multiple optima Many niching methods have been developed in the EA community Some classic examples include crowding fitness sharing clearing derating restricted tournament selection speciation etc Nevertheless applying these niching methods to real world multimodal problems often encounters significant challenges To facilitate the advance of niching methods in facing these challenges this edited book highlights the latest

developments in niching methods The included chapters touch on algorithmic improvements and developments representation and visualization issues as well as new research directions such as preference incorporation in decision making and new application areas This edited book is a first of this kind specifically on the topic of niching techniques This book will serve as a valuable reference book both for researchers and practitioners Although chapters are written in a mutually independent way Chapter 1 will help novice readers get an overview of the field It describes the development of the field and its current state and provides a comparative analysis of the IEEE CEC and ACM GECCO niching competitions of recent years followed by a collection of open research questions and possible research directions that may be tackled in the future

Advances in Pure and Applied Algebra Ratnesh Kumar Mishra,Manoj Kumar Patel,Shiv Datt Kumar,2023-04-03 This proceedings volume documents the contributions presented at the CONIAPS XXVII International Conference on Recent Advances in Pure and Applied Algebra The entries focus on modern trends and techniques in various branches of pure and applied Algebra and highlight their applications in coding cryptography graph and fuzzy theory The book comprised a total of eighteen chapters among which the first fourteen chapters are devoted to Algebra and related topics and the last four chapters are included applied mathematics parts The chapters present the latest research work being done on the frontiers of the various branches of algebra as well as showcase the cross fertilization of the ideas and connection among these branches Covering a broad range of topics in pure and applied Algebra this volume would appeal to a wide spectrum of the researcher in Mathematics The main aim of this monograph is to contribute to the development of pure and applied Algebra and hence we purposely sought a cross section of topics in Algebra and encouraged expository presentations and research papers that provide an innovative link between research areas of Algebra and the field of their applications This volume will be useful not only to experts but also to beginners of research in algebras and related topics
