Award Winning Amazon Deals:

Buy Now Emily West, 2022-02-22 How Amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy Amazon is ubiquitous in our daily lives we stream movies and television on Amazon Prime Video converse with Alexa receive messages on our smartphone about the progress of our latest orders In Buy Now Emily West examines Amazon's consumer facing services to investigate how Amazon as a brand grew so quickly and inserted itself into so many aspects of our lives even as it faded into the background becoming a sort of infrastructure that can be taken for granted Amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy West shows how Amazon has cultivated personalized intimate relationships with consumers that normalize its outsized influence on our selves and our communities She describes the brand's focus on speedy and seamless ecommerce delivery represented in the materiality of the branded brown box the positioning of its book retailing media streaming and smart speakers as services rather than sales and the brand's image control strategies West considers why pushback against Amazon's ubiquity and market power has come mainly from among Amazon's workers rather than its customers or competitors arguing that Amazon's brand logic fragments consumers as a political bloc West's innovative account the first to examine Amazon from a critical media studies perspective offers a cautionary cultural study of bigness in today's economy [EBK: Services Marketing: Integrating Customer Service Across the Firm 4e](#) Alan Wilson, Valarie Zeithaml, Mary Jo Bitner, Dwayne Gremler, 2020-10-07 Successful businesses recognize that the development of strong customer relationships through quality service and services as well as implementing service strategies for competitive advantage are key to their success In its fourth European edition Services Marketing Integrating Customer Focus across the Firm provides full coverage of the foundations of services marketing placing the distinctive Gaps model at the center of this approach The new edition draws on the most recent research and using up to date and topical examples the book focuses on the development of customer relationships through service outlining the core concepts and theories in services marketing today New and updated material in this new edition includes New content related to human resource strategies including coverage of the role of robots and chatbots for delivering customer focused services New coverage on listening to customers through research big data netnography and monitoring user generated content Increased technology social media and digital coverage throughout the text including the delivery of services using mobile and digital platforms as well as through the Internet of Things Brand new examples and case studies added from global and innovative companies including Turkish Airlines Volvo EasyJet and McDonalds Available with McGraw Hill's Connect the well established online learning platform which features our award winning adaptive reading experience as well as resources to help faculty and institutions improve student outcomes and course delivery efficiency [Oil Sparks in the Amazon](#) Patricia I. Vasquez, 2014-02-01 For decades studies of oil related conflicts have focused on the effects of natural resource

mismanagement resulting in great economic booms and busts or violence as rebels fight ruling governments over their regions hydrocarbon resources In Oil Sparks in the Amazon Patricia I Vasquez writes that while oil busts and civil wars are common the tension over oil in the Amazon has played out differently in a way inextricable from the region itself Oil disputes in the Amazon primarily involve local indigenous populations These groups social and cultural identities differ from the rest of the population and the diverse disputes over land displacement water contamination jobs and wealth distribution reflect those differences Vasquez spent fifteen years traveling to the oilproducing regions of Latin America conducting hundreds of interviews with the stakeholders in local conflicts She analyzes fifty five social and environmental clashes related to oil and gas extraction in the Andean countries Peru Ecuador and Colombia She also examines what triggers local hydrocarbons disputes and offers policy recommendations to resolve or prevent them Vasquez argues that each case should be analyzed with attention to its specific sociopolitical and economic context She shows how the key to preventing disputes that lead to local conflicts is to address structural flaws such as poor governance and inadequate legal systems and nonstructural flaws such as stakeholders attitudes and behavior at the outset Doing this will require more than strong political commitments to ensure the equitable distribution of oil and gas revenues It will require attention to the local values and culture as well

Global Environmentalism and Local Politics Maria Guadalupe Moog Rodrigues, 2012-02-01 What is the role played by local organizations in transnational environmental advocacy networks Global Environmentalism and Local Politics revisits this question by looking at transnational environmental activism in Brazil Ecuador and India Rodrigues investigates the internal politics of these networks focusing on their internal balance of power choice of strategies and distribution of resources among members at the international national and local levels Contrary to existing assumptions local organizations rather than international or national non governmental organizations are the key players in these networks while at the same time mere participation in transnational advocacy efforts does not necessarily lead to the empowerment of local organizations Participation may for example impose unanticipated political and technical burdens and despite their overarching common goal of environmental preservation network members may have different understandings of what environmentally sustainable development is and how it can be best achieved
