

HUMAN BODY: SKELETAL SYSTEM

Human Body: Skeletal System

Made up of bone and cartilage, the human skeletal system has many important functions, including support, movement, protection of internal organs, blood cell production, and mineral storage.

Skeleton

The adult human body has 206 bones and can be divided into 2 parts—the axial skeleton and the appendicular skeleton.

The **axial skeleton** (highlighted in red) includes bones of the skull, vertebral column, ribs, sternum, sacrum, and coccyx, totaling 80 bones.

The **appendicular skeleton** includes the 126 bones of the shoulders, pelvis, and upper and lower extremities.

Bone Tissue

There are 2 types of bone tissue. **Compact bone** is hard, dense, mineralized tissue that gives bone its strength. It usually surrounds spongy bone tissue. **Spongy bone** is a porous layer of tissue that makes bone lightweight. Its spaces usually contain blood vessels and bone marrow, a soft tissue that produces blood cells.

Cartilage

Cartilage is a flexible connective tissue that forms the embryonic skeleton. Most is ossified into bone during fetal and childhood development. In adults, cartilage is found at movable joints, and in the ear, nose, trachea, and other structures. It also connects the ribs and sternum.

Anatomy And Physiology The Skeletal System Packet

Community College of Denver

Anatomy And Physiology The Skeletal System Packet:

Teacher Support Pack Andy Mawdsley, Lucy Howes, 2004 Designed to assist the teacher in the planning and delivery of classes this resource pack provides a helpful source of advice and will save you hours of preparation time Includes support material for each of the 20 units Nancy Caroline's Emergency Care in the Streets Essentials Package American Academy of Orthopaedic Surgeons (AAOS), 2022-07-29 Nancy Caroline's Emergency Care in the Streets Essentials Package includes Content Instruction Student Learning Materials Textbook Instructor Guide Practice Activities Audiobook Assessments Analytics Slides Only available when assigned by instructors Nancy Caroline's Emergency Care in the Streets Ninth Edition is the newest evolution of the premier paramedic education training program This legendary paramedic textbook was first developed by Dr Nancy Caroline in the early 1970s and transformed paramedic education Today lead editors Bob Elling and Barb Aehlert along with the American Academy of Orthopaedic Surgeons are proud to continue this legacy and set the new gold standard for the paramedics of tomorrow The Ninth Edition offers cutting edge evidence based content that meets or exceeds the most current scientific recommendations developed by the International Liaison Committee on Resuscitation ILCOR and the ECC Guidelines established by the American Heart Association and other resuscitation councils around the world Clear chapter objectives align with the 2019 National EMS Scope of Practice Model and 2021 EMS Education Standards Thoroughly reviewed by medical doctors and subject matter experts the Ninth Edition teaches students the technical skills required of today's paramedic while emphasizing other important professional attributes including critical thinking empathy teamwork communication problem solving and personal well being Taking a systemic approach to the assessment and management of traumatic and medical emergencies and devoting entire chapters to special topics such as mass casualty incidents the Ninth Edition covers the full scope of paramedic practice Some of the key high level updates to the Ninth Edition include the following Language carefully reviewed throughout text to ensure gender neutrality racial inclusivity and nonstigmatizing descriptions of patient conditions NEW Street Smarts boxes throughout the text to emphasize the soft skills expected of today's paramedics Images updated to reflect appropriate PPE in the current COVID 19 setting Added emphasis on current spinal motion restriction guidelines Thoroughly reviewed and updated references statistics and case studies CPR and ACLS algorithms updated throughout text to reflect the current AHA guidelines 2023 2400 pages
