brings readers inside the league's global operations and traces the history of the NBA's approach to sports media from its 1980s embrace of cable through the streaming revolution of the twenty-first century. As fans around the world stream games and other league content, NBA teams incorporate foreign languages and cultures into broadcasts to boost their product's appeal to audiences in Brazil, China, and beyond. Secular's analysis reveals how the NBA continues to transform itself into a wildly successful media producer and distributor, more akin to a streaming studio than the sports leagues of old, even as its media partners and sponsors erase any notion of sports as a civic good.
