

AP Statistics Semester Exam Review

This is a *required* study guide for the upcoming semester exam, covering chapters 1-8 in your textbook. Do these problems on a separate sheet of paper. You may use your book, notes, old tests, or each other for help, but remember that you won't be able to use anything on your exam that I don't provide. A copy of the documents I will give you to use on the exam will be posted on my website (and is identical to the materials that they will give you on the AP test). This review may not be completely comprehensive, but combined with your old tests and quizzes, it will give you a good idea of the material that will appear on the exam. These problems are due on the day of your exam, and will count as a large homework assignment for the 2nd quarter. The answers have been provided to help you, and this will be posted on my website for you to use. Good luck!
