The Concise APA Handbook Paul Chamness Iida,Rachael Ruegg,Mark de Boer,Naoko Araki,Mary Frances Agnello,2020-07-01 Most students struggle with learning how to find references use them effectively and cite them appropriately in a required format One of the most common formats is that of APA The authors all have vast experience teaching writing courses to various levels of students from undergraduates to graduates in other countries However there

was lacking a book that could explain the basics of APA in simple easy to understand language for non native speakers of English who are often unfamiliar with using references and formatting an essay in a particular method In order to offer English Learner student writers a source of information that is appropriate for their level and is cost effective this updated APA 7th edition guidebook provides students with important information in clear concise user friendly language as well as to offer practical examples that will help them grasp the concept of secondary research writing Much of the published materials on the market targets native speakers of English The problem with this is that they present the nitpicky details of APA in ways that do not make sense to native speakers of English let alone to those for whom English is not their first language because the information is presented in very technical terms that are not easy to understand This handbook presents the same information in simplified terms with images and step by step instructions in ways that make sense to both native and non native English speaking student writers Additionally student writers often struggle with understanding the concept of plagiarism as well as how to find sources evaluate the appropriateness of sources and use sources in effective ways e g how to integrate quotes when to paraphrase among others This book provides this important information that is concise and easy to understand NOTE This is a REVISED edition of our original The Concise APA Handbook which has been updated for APA 7th edition which was issued in the fall 2019
