How to Write a Master's Thesis is a comprehensive manual on how to conceptualize and write a five-chapter master's thesis, including the introduction, literature review, methodology, results, and discussion/conclusion. Very often, a theory-practice gap exists for students who have taken the prerequisite methods and statistics courses in their master's program but who have yet to understand how to apply and translate what they've learned about the research process with their first major project. Yvonna Bui demystifies this process by integrating the language learned in these prerequisite courses into a step-by-step guide for developing one's own thesis project.
