On the Clock Claire Baglin, 2025-03-04 A marvelous debut from the hugely talented young French writer Claire Baglin this tender and painful portrait of working class life finds shards of poetry inside the twin hardships of poverty and service work Claire Baglin's *On the Clock* packs a family saga a penetrating picture of social inequality and a coming of age story into a compact tale told in two alternating strands The first follows the 20 year old narrator's summer job at a fast food franchise and the other shows us moments from her childhood with her family with a particular focus on her hapless infuriating good hearted father a low paid but devoted electrician in a factory with an upside down smile These two skeins sketch out in swift turns two stories of underappreciated work one covering several decades the other a summer one constituting a sort of life the other a stopgap on the way to something different the narrator is a college student With a keen eye for eloquent details and sharp ear for workplace jargon her dry humor and a crisp compelling style Baglin's depiction of their lives is particularly rich at once affectionate and alienated Working the alternating strands in a way reminiscent of Georges Perec's *W or the The Memory of Childhood* the past is remarkably vivid in *On the Clock* her childhood memories of their bleak small town and of summer vacations spent at campgrounds by the sea in Brittany And the present blazes in scenes of the young woman's current fast food trial the awful boss the nasty manager and all the tedium and horror of dead
