The Danger of Puberty Suppression Michael S. Dellaperute,2019-08-21 What would you do if a child in your life rejected their natal gender Would you blindly follow the counsel of a culture that advocates for hormone treatment at an early age in order to suppress puberty and facilitate gender transition Before you commit to long term use of a powerful expensive and experimental synthetic hormone treatment plan would you be willing to take the time to examine the ethics surrounding a course of action that will permanently affect the life of the child Several serious questions are presently being overlooked in the rush to treat gender dysphoric and TGNC children with puberty suppressing hormones such as Are puberty suppressing hormones medically necessary Is there any evidence to prove that hormone treatment is helpful and not harmful to gender dysphoric children Does hormone treatment resolve gender dysphoria Do other treatment options exist to address the underlying causes of gender dysphoria Are parents medical providers and ministry professionals morally obligated to provide puberty suppressors for patients who self diagnose Does Scripture offer any insight into the treatment of gender dysphoric children And finally who really benefits from advocating for the early use of GnRH agonists This book will answer these questions **Fundamentals of Anatomy and Physiology Value Package (includes Martini Study** Frederic H.
