**FROM HUNTER-GATHERERS TO FARMERS** Monica Mărgărit, Adina Boroneanț, 2024-08-18 It is difficult to capture one's life in a few words a few photographs or even a book The papers in the present volume will hopefully reflect a part of Clive Bonsall's scientific interests during a career that has started some 45 years ago Their diversity is impressive from radiocarbon dating environmental changes human environment interactions funerary behaviour to paleogenetics and stable isotopes reconstruction of ancient diets and obsidian sourcing most of them in close connection to the hunter gatherer and first farmer communities of Europe His studies stretched over a large geographical area focusing recently mainly around the Balkans and the neighbouring regions He has conducted fieldwork in Britain Scotland Romania and Slovenia edited 9 books and published over 160 papers book chapters notes as well as book and paper reviews His main publications include *The Mesolithic in Europe* 1989 *The Human Use of Caves* 1997 *The Iron Gates in Prehistory* 2008 *Submerged Prehistory* 2011 and *Not Just for Show The Archaeology of Beads Beadwork and Personal Ornaments* 2017 His substantial work in southeastern Europe is reflected by his long standing collaboration and friendship with many Romanian and Bulgarian archaeologists and has received due recognition Clive Bonsall is an Honorary Member of both the Vasile P. P. P. Institute of Archaeology in Bucharest and the National Institute of Archaeology with Museum in Sofia His contribution to the archaeology of the Iron Gates has earned him the recognition of the Serbian archaeologists working in the area His many other research interests and personal collaborations are also reflected in the present volume We are grateful to all our contributors colleagues and friends new and old former students and collaborators whose archaeological interests met Clive's if only briefly We were happy to see that so many of us were able to mobilize in such a short time We would like to thank all those who answered our call and at a time when every minute of our professional lives is carefully planned in advance helped us put together this volume in less than a year They have endured and complied with our constant deadline reminders and requests checked and rechecked their manuscripts in record times gracefully complying with the comments and suggestions from the reviewers and were most patient with our editorial work Each paper was submitted to a double reviewing We would like to also thank our colleagues from various disciplines who accepted to anonymously review the contributions Their hard and serious work significantly improved the overall content of the volume The outcome has exceeded our most optimistic expectation a volume that geographically covers almost the entire European continent from Britain to Russia and Greece and touches on most important issues of hunter gather adaptations through time A volume brought together by chronological landmarks the end of the Pleistocene and the beginning of the Holocene and geographical areas but also by common approaches to issues such as human animal interactions exploitation and use of raw materials and subsistence strategies We chose to organize the papers on three main sections while within the respective theme they follow in chronological succession The archaeology of the Iron Gates opens the volume given Clive Bonsall's substantial contribution to the local early prehistory The eight contributions
