Dan Richardson,2014-07-15 When Spain exploded into civil war in July 1936 a conflict whose roots were deep in the Spanish past became the arena for the violent political passions that divided Europe north of the Pyrenees Germany Italy and the Soviet Union intervened actively in the war using Spain as a testing ground for their military equipment and techniques and their political ideologies In this first in depth study of the politics of the International Brigades in the Spanish Civil War R Dan Richardson views the Brigades in the wider context of both the complex political military alignments of Loyalist Spain and the broader Soviet Comintern strategy during the Popular Front era While not denying the generous impulse that led many young men the world over to enlist in the cause of the Spanish Republic he sees the Brigades primarily as instruments of communist policy He argues that the directing force behind the enlistment training and deployment of the Brigades was the international communist organization a compelling example of how the ends of propaganda and politics took precedence over military objectives Using a wide array of sources in English Spanish French Italian and German and a thorough analysis of the Brigades own voluminous literary output Richardson clearly shows that the Brigades were a significant political ideological and propaganda instrument which was used effectively by the Comintern for its own purposes not only in Spain but on the larger world stage *Advanced Placement Spanish* José M.
