Achieve Real Academic Success veteran teacher Charles Lipson brought welcome clarity to the principles of academic honesty as well as to the often murky issues surrounding plagiarism in the digital age. Thousands of students have turned to Lipson for no nonsense advice on how to cite sources properly and avoid plagiarism when writing their research papers. With his latest book *Cite Right*, Lipson once again provides much needed counsel in a concise and affordable handbook for students and researchers. Building on *Doing Honest Work in College*, Lipson's new book offers a wealth of information on an even greater range of citation styles and details the intricacies of many additional kinds of sources. Lipson's introductory essay *Why Cite* explains the reasons it is so important to use citations and to present them accurately in research writing. In subsequent chapters, Lipson explains the main citation styles students and researchers are likely to encounter in their academic work: Chicago, MLA, APA, CSE, biological sciences, AMA, medical sciences, ACS, chemistry, mathematics, and computer science, physics, astrophysics, and astronomy, Bluebook and ALWD law, and AAA, anthropology, and ethnography. His discussions of these styles are presented simply and clearly, with examples drawn from a wide range of source types crossing all disciplines, from the arts and humanities to science, law, and medicine. Based on deep experience in the academic trenches, *Cite Right* is an accessible one-stop resource, a must-have guide for students and researchers alike who need to prepare citations in any of the major disciplines and professional studies.

Conducting Research Lawrence T. Orcher, 2016-10-14

Prepares students to conduct their first empirical research study with quantitative and qualitative methods covered in detail. Common features as well as differences between the two research approaches are explored. While theoretical material is included, the emphasis is on providing practical, easy-to-follow advice on how to conduct a first research project. Unlike most texts with hypothetical examples, this text, with real examples written by a variety of published researchers, makes research methods come alive. Students see how research methods are used to explore important contemporary problems. Factual Questions at the end of each chapter help students review key concepts covered in the chapters. Questions for Discussion encourage students to consider specific techniques and strategies that they might use while conducting their research.

Conducting Research Gül Seçkin, Lawrence T. Orcher, 2025-02-24

Conducting Research prepares students to conduct their first empirical research study with quantitative and qualitative methods covered in detail. The emphasis is on providing practical, easy-to-follow advice on how to conduct a first research project. This book walks students through each step of the research process, from selecting a research topic and participants to analysing data and presenting research findings. Notably, the third edition places a heightened emphasis on digital social science research methods encompassing both quantitative and qualitative methodological approaches. The primary focus is on providing practical and easily comprehensible guidance for successfully executing an empirical project for a research methods and design course. The updated real research examples serve to exemplify the application of research principles in an empirical social science research context, further enhancing the students' preparedness for their research project. multiple disciplines **How to Write a BA Thesis** Charles Lipson, 2007-12-01 The senior thesis is the capstone of a college education but writing one can be a daunting prospect. Students need to choose their own topic and select the right adviser. Then they need to work steadily for several months as they research, write, and manage a major independent project. Now there's a mentor to help. **How to Write a BA Thesis** is a practical, friendly guide written by Charles Lipson, an experienced professor who has guided hundreds of students through the thesis writing process. This book offers step-by-step advice on how to turn a vague idea into a clearly defined proposal, then a draft paper, and ultimately a polished thesis. Lipson also tackles issues beyond the classroom, from good work habits to coping with personal problems that interfere with research and writing. Filled with examples and easy-to-use highlighted tips, the book also includes handy time schedules that show when to begin various tasks and how much time to spend on each. Convenient checklists remind students which steps need special attention, and a detailed appendix filled with examples shows how to use the three main citation systems in the humanities and social sciences: MLA, APA, and Chicago. **How to Write a BA Thesis** will help students work more comfortably and effectively on their own and with their advisers. Its clear guidelines and sensible advice make it the perfect text for thesis workshops. Students and their advisers will refer again and again to this invaluable resource. From choosing a topic to preparing the final paper, **How to Write a BA Thesis** helps students turn a daunting prospect into a remarkable achievement.
