

Synthesis Essay

Introduction

A synthesis essay is a written discussion that draws on one or more sources. It follows that your ability to write syntheses depends on your ability to infer relationships among sources—essays, articles, fiction, and also non-written sources, such as lectures, interviews, observations. This process is nothing new for you, since you infer relationships all the time—say, between something you’ve read in the newspaper and something you’ve seen for yourself, or between the teaching styles of your favorite and least favorite instructors. In fact, if you’ve written research papers, you’ve already written syntheses. In an academic synthesis, you make explicit the relationships that you have inferred among separate sources.

Like all the books in the Anker series, *Real Essays* presents writing in logical, manageable increments: step-by-step writing guides and a focus on the four basics of each mode of writing keep students from becoming overwhelmed. *Real Essays* maintains its emphasis on what really matters by focusing on the four most serious errors fragments run on, subject-verb agreement problems, and verb form problems. *Real Essays* gives students what they need to succeed in college and become stronger academic writers.
