A+ Guide to Five-Paragraph Essays Alison Plus, 2012-03-07 This is not a textbook This booklet contains very little writing theory or explanation of rhetorical concepts Instead it is a step by step method for writing a five paragraph paper from the assignment through the final proofreading Using sentence formulas paragraph templates and detailed checklists the writer will be able to plug in subject matter for their assigned papers and build a finished product that is organized correctly For writers who need to create a five paragraph 2 3 page paper this

booklet will guide them through the process of getting the words down on the page. It does not matter if that paper is meant to be informative or persuasive. Regardless of tone or style, this booklet can guide the writer through to a finished paper.

Working with Families of Psychiatric Inpatients Alison M. Heru, Laura M. Drury, 2007-04-15 Working with the families of inpatients is one of the most important and most challenging aspects of practicing clinical psychiatry. Clinicians are responsible not only for the well being of their patients but also for the education and guidance of the patient's family. In this book, Alison M. Heru and Laura M. Drury offer a step by step guide to developing the skills needed to work successfully with patients' families. Research data outlined in the opening chapters demonstrate just how essential families and evidence based family treatment are to effective patient care. Succeeding chapters use clinical case studies to illustrate the skills necessary for the assessment and treatment of the family. Psychiatric residents will enhance their knowledge of the family as a part of the patient's social context and learn how to conduct a family meeting, common mistakes to avoid and when to refer the family for other assistance. The authors also describe specific strategies for intervening with difficult families and for overcoming some of the fears and anxieties common among residents when they interact with patients' families. The authors provide valuable insights into the perspectives of families and patients and offer practical suggestions for risk management after the patient is discharged from inpatient care. Keyed to the requirements articulated by the American College of Graduate Medical Education, this handbook is a tool no psychiatric resident can do without.

A Guide to Online Course Design Tina Stavredes, Tiffany Herder, 2014-01-28 A Guide to Online Course Design offers faculty and professional staff a practical and easy to follow model for creating exceptional online courses that focuses on quality standards, instructional design, transparency in learning outcomes and learner persistence. A comprehensive resource, the book includes effective research based instructional strategies to motivate online learners and help them become more self directed. A Guide to Online Course Design emphasizes quality standards and removing barriers to learners' persistence, which ensures online courses meet the needs of online learners as well as distance education initiatives. All faculty members and course designers, regardless of experience level, content background or technology skills, can benefit from applying the approaches defined in this book. The authors have imparted a wealth of knowledge that can improve the quality of any online class, and I highly recommend this book for all those involved with online learning.

Anton G. Camarota, faculty, University of Denver. Anyone involved in developing online courses should read this book. Packed with great insights and the research to back them up, Stavredes and Herder guide readers with practical information that will support online course development.

Brenda Boyd, director of professional development and consulting, Quality Matters Program. The blend of theory and application makes A Guide to Online Course Design an indispensable resource for any professional seeking to create high quality outcomes based learning experiences. I loved the action steps that close each chapter as they lead the

reader through the entire process of course design from analysis to implementation Kathe Kacheroski dean of curriculum and instruction Rasmussen College **Adult Psychopathology and Diagnosis** Michel Hersen, Deborah C. Beidel, 2011-12-19
