

APA Format–6th Edition

OVERVIEW–The American Psychological Association (APA) style is widely accepted in the social sciences and other fields, such as education, business, and nursing. The APA citation format requires parenthetical citations within the text rather than endnotes or footnotes. Citations in the text provide brief information, usually the name of the author and the date of publication, to lead the reader to the source of information in the reference list at the end of the paper.

NOTE: Although the examples in this guide are shown in single space, APA style requires double spacing throughout (e.g. text, references, etc.)

APA RULES FOR THE REFERENCES PAGE – The following sections show some of the more commonly used APA citation rules.

NOTE: All citations must be in the Hanging Indent Format with the first line flush to the left margin and all other lines indented.

Henry S. Merrill, 2018-08-01 The purpose of this book is to assist post traditional students to achieve success in the Occupational Workforce and Leadership Studies (OWLS) Department and develop their individualized pathway to earn the interdisciplinary Bachelor of Applied Arts and Sciences (BAAS) degree at Texas State University. Applied baccalaureate degrees incorporate higher order thinking skills and advanced technical knowledge and skills with applied coursework. BAAS students may also earn college level credits through prior learning assessment (PLA) evaluating and credentialing knowledge and skills gained outside the classroom. The organization and content of this book provides adult degree program faculty and leaders an example of how one required textbook develops and supports the outcomes and activities in all the core courses of an interdisciplinary degree program designed for post traditional adult learners. The majority of the students earning the BAAS degree are post traditional students. They are often defined with some or all of these characteristics: over age 25 years old when starting or returning to college, may not have a traditional high school diploma, enroll part time, work full time, are financially independent, have dependents other than a spouse, and may be a single parent. These students juggle multiple roles and responsibilities in the family, workplace, and community. Post traditional students bring rich work life experiences, may be experiencing personal and/or professional transitions, have clear career goals, and often finance their education. They seek flexible programs including online education, PLA, and accelerated course formats. Thus, post traditional students want active, collaborative, and interactive learning relevant to career and other roles and goals. *Research Methods* Ben Gorvine, Karl Rosengren, Lisa Stein, Kevin Biolsi, 2018 *Research Methods: From Theory to Practice* guides students through the entire research process from choosing a research question and getting Institutional Review Board approval to presenting results at conferences and submitting work for peer review. **KEY FEATURES** Provides students the practical skills needed to conduct their own research. Encourages critical thinking to help students become educated consumers of research presented in journal articles and the popular media. Considers the influence of rapidly changing technology on research methods including statistical and neuroscience methods. Inside Research features personalized research by highlighting real life examples of researchers working in a variety of fields. Media Matters features analyze and evaluate how a particular research study or

general topic relevant to the chapter is portrayed in the media Flowchart Figures present key concepts of the research process in a clear and simple visual overview
