Congress. House. Committee on Government Operations. Commerce, Consumer, and Monetary Affairs Subcommittee,1981 The Conversion of Rental Housing to Condominiums and Cooperatives United States. Department of Housing and Urban Development. Office of Policy Development and Research. Division of Policy Studies,1980 **The Conversion of Rental Housing to Condominiums and Cooperatives** ,1980 *Rethinking Rental Housing* John Gilderbloom,Richard P. Appelbaum,1987-12-30 In recent years almost daily media attention has been focused on the plight of the homeless in cities across the United States Drawing upon experiences in the U S and Europe John Gilderbloom and Richard Appelbaum challenge conventional assumptions concerning the operation of housing markets and provide policy alternatives directed at the needs of low and moderate income families Rethinking Rental Housing is a ground breaking analysis that shows the value of applying a broad sociological approach to urban problems one that takes into account the basic economic social and political dimensions of the urban housing crisis Gilderbloom and Appelbaum predict that this crisis will worsen in the 1990s and argue that a supply and demand approach will not work in this case because housing markets are not competitive They propose that the most effective approach to affordable housing is to provide non market alternatives fashioned after

European housing programs particularly the Swedish model An important feature of this book is the discussion of tenant movements that have tried to implement community values in opposition to values of development and landlord capital One of the very few publications on rental housing it is unique in applying a sociological framework to the study of this topic

Congress. Joint Committee ...,1947 Extension of Rent Control United States. Congress. Senate. Committee on Banking and Currency,1950 **Housing America** Randall G. Holcombe,2017-07-05 Housing policy not only affects all Americans quality of life but has a direct impact on their financial well being About 70 percent of American households own their own homes and for most their homes represent the majority of their net worth Renters are affected by housing policy Even the small minority of Americans who are homeless are affected by housing policies specifically targeted to low income individuals The government's increasing involvement in housing markets fed by popular demand that government do something to address real problems of mortgage defaults and loans provides good reason to take a new look at the public sector in housing markets Crises in prime mortgage lending may lower the cost of housing but the poor and homeless cannot benefit because of increases in unemployment Even the private market is heavily regulated Government policies dictate whether people can build new housing on their land what type of housing they can build the terms allowed in rental contracts and much more This volume considers the effects of government housing policies and what can be done to make them work better It shows that many problems are the result of government rules and regulations Even in a time of foreclosures the market can still do a crucial job of allocating resources just as it does in other markets Consequently the appropriate policy response may well be to significantly reduce not increase government presence in housing markets Housing America is a courageous and comprehensive effort to examine housing policies in the United States and to show how such policies affect the housing market **Study and Investigation of Housing** United States. Congress. Joint Committee on Housing,1948 *General Tax Reform (testimony from Administration and Public Witnesses) Public Hearings, Ninety-third Congress, First Session...* United States. Congress. Gould,Carroll D. Wright,1895 *Affordable Housing Through Historic Preservation* William F. Airbnb, Short-Term Rentals and the Future of Housing Lily M. Hoffman, Barbara Schmitter Heisler, 2020-11-03 How do Airbnb and short term rentals affect housing and communities Locating the origins and success of Airbnb in the conditions wrought by the 2008 financial crisis the authors bring together a diverse body of literature and construct case studies of cities in the US Australia and Germany to examine the struggles of local authorities to protect their housing and neighborhoods from the increasing professionalization and commercialization of Airbnb The book argues that the most disruptive impact of Airbnb and short term rentals has been on housing and neighborhoods in urban centers where housing markets are stressed Despite its claims Airbnb has revealed itself as platform capitalism incentivizing speculation in residential housing At the heart of this trajectory is its business model and control over access to data In a first narrative the authors discuss how Airbnb has institutionalized short term rentals consequently removing long term rentals contributing to rising rents and changing neighborhood milieus as visitors replace long term residents In a second narrative the authors trace the transformation of short term rentals into a multibillion dollar hybrid real estate sector promoting a variety of flexible tenure models While these models provide more options for owners and investors they have the potential to undermine housing security and exacerbate housing inequality While the overall effects have been similar across countries and cities depending on housing systems local response has varied from less restrictive in Australia to increasingly restrictive in the United States and most restrictive in Germany Although Airbnb has made some concessions it has not given any city the data needed to efficiently enforce regulations making for costly externalities Written in a clear and direct style this volume will appeal to students and scholars in Urban Studies Urban Planning Housing and Tourism Studies
