Lonsdorf, Stephen R. Ross, Tetsuro Matsuzawa, 2010-08-15 Understanding the chimpanzee mind is akin to opening a window onto human consciousness Many of our complex cognitive processes have origins that can be seen

in the way that chimpanzees think learn and behave The Mind of the Chimpanzee brings together scores of prominent scientists from around the world to share the most recent research into what goes on inside the mind of our closest living relative Intertwining a range of topics including imitation tool use face recognition culture cooperation and reconciliation with critical commentaries on conservation and welfare the collection aims to understand how chimpanzees learn think and feel so that researchers can not only gain insight into the origins of human cognition but also crystallize collective efforts to protect wild chimpanzee populations and ensure appropriate care in captive settings With a breadth of material on cognition and culture from the lab and the field The Mind of the Chimpanzee is a first rate synthesis of contemporary studies of these fascinating mammals that will appeal to all those interested in animal minds and what we can learn from them **The**

Landscape of Introspection François Kammerer, Keith Frankish, 2025-04-01 We can introspect We can look inwards as it were at our own minds and represent what is occurring there Philosophers and psychologists have speculated about how we do this but there has been little exploration of the wider theoretical landscape in the area Could other beings such as non human animals and artificial intelligences introspect too What forms might their introspection take Do some humans introspect in nonstandard ways and can humans develop new introspective powers through techniques such as meditation This book a reprint of a special issue of the Journal of Consciousness Studies explores this neglected landscape It opens with a target article by the editors which proposes an ambitious research programme on possible forms of introspection and provides maps and conceptual tools to get the project under way This is followed by fifteen commentaries from leading philosophers and cognitive scientists Topics discussed include the experimental study of introspection introspection in animals LLMs and group minds and the effects on introspection of meditation and certain psychiatric conditions The volume concludes with a reply by the editors which revises and extends their original proposal The Landscape of Introspection offers an informed contemporary and challenging view of what introspection is and could be **Mind and the Frontal Lobes**

Brian Levine, Fergus I.M. Craik, 2012-01-05 The human frontal lobes are crucial to mental functioning yet ongoing research is still uncovering their mechanisms This text written by leaders in frontal lobe research provides a state of the art update of patient and neuroimaging research **Handbook of Personality, Fourth Edition** Oliver P. Molecular Ecology Joanna R. Freeland,Heather Kirk,Stephen D. Petersen,2011-03-23 Molecular Ecology 2nd Edition provides an accessible introduction to the many diverse aspects of this subject The book takes a logical and progressive approach to uniting examples from a wide range of taxonomic groups The straightforward writing style offers in depth analysis whilst making often challenging subjects such as population genetics and phylogenetics highly comprehensible to the reader The first part of the book introduces the essential underpinnings of molecular ecology and gives a review of genetics and discussion of the molecular markers that are most frequently used in ecological research and a chapter devoted to the newly emerging field of ecological genomics The second half of the book covers specific applications of molecular ecology covering phylogeography behavioural ecology and conservation genetics The new edition provides a thoroughly up to date introduction to the field emphasising new types of analyses and including current examples and techniques whilst also retaining the information rich highly readable style which set the first edition apart Incorporates both theoretical and applied

perspectives Highly accessible user friendly approach and presentation Includes self assessment activities with hypothetical cases based on actual species and realistic data sets Uses case studies to place the theory in context Provides coverage of population genetics genomics phylogeography behavioural ecology and conservation genetics Mammalogy George A. Feldhamer, Joseph F. Merritt, Carey Krajewski, Janet L. Rachlow, Kelley M. Stewart, 2020-03-24 A completely revised and updated edition of the leading mammalogy textbook featuring color photographs throughout and a new streamlined structure for enhanced use in courses There are more than 6 400 species in the class Mammalia including the blue whale the largest animal that has ever lived and the pygmy shrew which weighs little more than a dime Such diversity among mammals has allowed them to play critical roles in every ecosystem whether marine freshwater alpine tundra forest or desert Reflecting the expertise and perspective of five leading mammalogists the fifth edition of Mammalogy Adaptation Diversity Ecology significantly updates taxonomy adds a new introductory chapter on the science of mammalogy and highlights several recently described species To enhance its appeal to students textual material has been reduced consolidated and streamlined without sacrificing breadth or depth of coverage The fifth edition includes for the first time stunning color photographs throughout chapters rearranged and grouped to best reflect phylogenetic relationships with updated numbers of genera and species for each family updated mammalian structural and functional adaptations as well as ordinal fossil histories recent advances in mammalian phylogeny biogeography social behavior and ecology with 12 new or revised cladograms reflecting current research findings new breakout boxes on novel or unique aspects of mammals new work on female post copulatory mate choice cooperative behaviors group defense and the role of the vomeronasal system discussions of the current implications of climate change and other anthropogenic factors for mammals Maintaining the accessible readable style for which Feldhamer and his coauthors are well known this new edition of Mammalogy is the authoritative textbook on this amazingly diverse class of vertebrates **Animal Homosexuality** Aldo Poiani, 2010-08-19 Homosexuality is an evolutionary paradox in search for a resolution not a medical condition in search for a cure Homosexual behavior is common among social animals and mainly expressed within the context of a bisexual sexual orientation Exclusive homosexuality is less common but not unique to humans Poiani and Dixson invite the reader to embark on a journey through the evolutionary biological psychological and sociological aspects of homosexuality seeking an understanding of both the proximate and evolutionary causes of homosexual behavior and orientation in humans other mammals and birds The authors also provide a synthesis of what we know about homosexuality into a biosocial model that links recent advances in reproductive skew theory and various selection mechanisms to produce a comprehensive framework that will be useful for anyone teaching or planning future research in this field Religion and Inequality in Africa Ezra Chitando, Anthony B. Pinn, Loreen Maseno, Joram Tarusarira, Monica R. Miller, 2023-01-12 This volume reveals how religion interfaces with inequality in different African contexts Some contributors undertake detailed analyses of how religion creates and justifies different forms of inequality that holds back individuals

groups and communities across the continent from flourishing while others show how religion can also mitigate inequality in Africa Topics addressed include gender inequality economic inequality disability ageism and religious homophobia Specifically focusing on the United Nations Sustainable Development Goal 10 to reduce inequality within and among countries this book highlights the extent to which Africa's notoriously religious identity needs to be taken into account in discourses on development
