1986 Surgeon General Report Aids:

Risk and Protective Factors in the Development of Psychopathology Jon Rolf, Ann S. Masten, 1992 Chapters by distinguished investigators in clinical psychology psychiatry and child development many of whose work led to the new developmental model of psychopathology provide a unique review of current research on vulnerability and resistance to disorder

Surgeon General's Warning Mike Stobbe, 2014-06-26 What does it mean to be the nation's doctor In this engaging narrative journalist Mike Stobbe examines the Office of the U S Surgeon General underlining how it has always been an anomaly within the federal government with a unique ability to influence public health But now Surgeon Generals compete with other high profile figures like the Secretary of Health and Human Services and the Director of the Centers for Disease Control and Prevention Furthermore in an era of declining budgets when public health departments eliminate tens of thousands of jobs some argue that a lower profile and ineffective surgeon general is a waste of money Tracing stories of how surgeons general such as Luther Terry C Everett Koop and Jocelyn Elders created policies and confronted controversy in response to issues like smoking AIDS and masturbation Stobbe highlights how this office is key to shaping the nation's health and explains why its decline is harming our country's well being

Disciplinary and Dissent in Cultural Studies Cary Nelson, Dilip Gaonkar, 2013-10-28 First published in 1996 As recently as the early 1990s people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have What type of projects would cultural studies inspire people to undertake Would established disciplines welcome its presence and adapt their practices accordingly *Disciplinary and Dissent in Cultural Studies* answers such questions It is now clear that while striking and innovative work is underway in many different fields most disciplinary organizations and structures have been very resistant to cultural studies Meanwhile cultural studies has been subjected to repeated attacks by conservative journalists and commentators in the public sphere Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social political and cultural commentary by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding This book tracks these debates and maps future strategies for cultural studies in academia and public life The contributors to *Disciplinary and Dissent in Cultural Studies* include established scholars and new voices In a series of polemic and exploratory essays written especially for this book they track the struggle

with cultural studies in disciplines like anthropology literature and history and between cultural studies and very different domains like Native American culture and the culture of science Contributors include Arjun Appadurai Michael Denning Lawrence Grossberg Cary Nelson Constance Penley Andrew Ross and Lynn Spigel **Bridge Leadership** Autumn K. Tooms, Christa Boske, 2010-01-01 This is the first chronicle of the history of social justice as a line of inquiry within the field of educational administration Editors Tooms and Boske have amassed a collective voice of leaders in the field of Educational Administration who have broken barriers and expanded the field through their own work and scholarship within a national and international arena Many of these narratives are the first time tellings of the challenges and successes found in the works of this group of scholars of historic significance This collection is written and organized into practical and easy to digest sections They are part history lesson and part practical teaching tool for those who prepare school leaders Anyone from school leaders to academics interested or charged with unpacking the messy intersections between school leadership and issues of social justice will find inspiration and easy to understand explanations of leadership and equity work within the chapters presented Endorsement Bridge Leadership is a powerful and fascinating new volume that explores the intersections of social justice and educational leadership What distinguishes it from other social justice work is that it is much more personal than most such texts Many of the book's authors share poignant excerpts of their life stories and connect them to the theoretical constructs historical events and political struggles of social justice The foregrounding of these personal stories and the bridges they create with social justice gives the volume a raw power not found in other social justice works I could not put the volume down Ulrich C Reitzug University of North Carolina Greensboro *Cultural Studies*, 2005
