Linzer, 2006-10-25 Many nonprofits rely on conventional methods of making and managing money from donations to cash reserves endowments and capital building campaigns in hopes of securing financial stability for the future Yet these acquired funds often remain tantalizingly out of reach for day to day operations the balance sheet may look good but the actual cash available is often surprisingly low In order to achieve their missions nonprofits need to fundamentally change the way they think about money Richard and Anna Linzer introduce a groundbreaking approach to nonprofit financial management based on cash flow and the use of credit that gives nonprofits the money they need when they need it while ensuring the long term financial well being of the organization Their revolutionary and effective financial model is explained in clear and understandable terms for decision makers in both large and small nonprofit organizations The Linzers are revolutionaries in the nonprofit financial world and leaders should take notice Martha J Perry associate executive director McCune Foundation A great book for any board member of a nonprofit organization Michael Schlesinger attorney author lecturer and commentator in the field of taxation Nonprofits now have a choice Muddle along from crisis to crisis or follow the advice in this excellent innovative book Irene Y Namkung past board president the Western Arts Alliance Northwest Folklife and Oregon Potters Guild It s heresy but it works The Cash Flow Solution presents solid steps to financial sanity in the nonprofit boardroom James A Kolb West Sound Academy From time to time a book makes so much sense you wonder why someone did not write it a long time ago Richard and Anna Linzer s book The Cash Flow Solution is such a book The principles are as fundamental and rock solid as they are innovative Applying their suggestions could help many troubled organizations survive and thrive More importantly the Linzers insight could lead many nonprofits in coming closer to fulfilling their potential to deal with the many needs of our society Mike Pedretti Artistic Director and President Movement Theatre International      **Our Own Backyard** William M. LeoGrande, 2009-11-18 In this remarkable and engaging book William LeoGrande offers the first comprehensive history of U S foreign policy toward Central America in the waning years of the Cold War From the overthrow of the Somoza dynasty in Nicaragua and the outbreak of El Salvador s civil war in the late 1970s to the final regional peace settlements negotiated a decade later he chronicles the dramatic struggles in Washington and Central America that shaped the region s destiny For good or ill LeoGrande argues Central America s fate hinged on decisions that were subject to intense struggles among and within Congress the CIA the Pentagon the State Department and the White House decisions over which Central Americans themselves had little influence Like the domestic turmoil unleashed by Vietnam he says the struggle over Central America was so divisive that it damaged the fabric of democratic politics at home It inflamed the tug of war between Congress and the executive branch over control of foreign policy and ultimately led

to the Iran contra affair the nation's most serious political crisis since Watergate

Peterson, 2012-12-06 In 1989 the federal government spent 1197 billion a mind boggling sum that is almost impossible to visualize Since there were 248.8 million people living in the United States in that year the government spent an average of 4811 for every man woman and child in the nation For a hypothetical family of four federal spending in 1989 amounted to an average of 19 244 To put this sum in perspective the money income of an American family averaged 35 270 in the same year To finance spending 1197 billion the government collected taxes from American citizens and residents in an amount of 1047 billion Because of a shortfall between what it spent and what it took in taxes the government had to borrow 150 billion partly from individuals but mostly from banks insurance companies and foreigners How where and on whom did the federal government spend all this money Since federal spending in 1989 totaled 23 cents in comparison to every dollar spent for the buying of goods and services finding an answer to this question is not a trivial matter Spending by Washington reaches into every nook and cranny of the economy touching the lives and fortunes of almost everyone in the nation Thus answers to these questions are of more than academic interest
