

Note

Check housing, balls, cage and balls for pitting. Excessive radial clearance in joint is indication when driving pins in. Excessive radial clearance pins do not replace pins because of polished appearance or increased ball track can be seen.

Constant velocity joints cannot be rebuilt and must be replaced as complete units. When replacing lower, add 100.0 grams (see joints for capacities).

WARNING

Do not assume any fasteners that are worn or damaged or missing bolts. Many fasteners are designed to be used only once and become too difficult and may fail when used in a second time. This includes, but is not limited to, nuts, bolts, washers, self-locking nuts or lock washers and cotter pins. Always replace these fasteners with new parts.
