Subcommittee on Rural Development, Biotechnology, Specialty Crops, and Foreign Agriculture, 2009 Impact of a Citizenship Program on Middle School Students Jeanette Alcock Mughal, 2015-02-01 The focus on behaviour became an important feat to accomplish The query was based on the disruptive methods students would use in order to circumvent basic rules and regulations within their learning communities The old standard rule of teacher being in charge of the classroom with a mixture of a fear factor secretly diagnosed as respect no longer was evident President Bush s introduction of the No Child Left Behind NCLB mandates was brilliant with ist idea of inclusivity but near eliminated accountability for those able students Teachers became the main target group of this experiment in the promotion of all students They became scapegoats if you will of a system that made them accountable and left those who should have been accountable in meeting educational objectives administration and more so the student Teachers became overwhelmed with teaching objectives and a multitude of paperwork to facilitate this new structure of responsibility Actual teaching was foregone under the weight of segmenting students into their proper groups then find the time to discipline and ensure that all pass the required end of year examinations The result of these initiatives was to the repeal of NCLB and schools becoming big business with the teacher benefiting less under a continual weight of professional servitude and the standard no voice **Frackopoly** Wenonah Hauter, 2014-10-14 The definitive story on how big oil and gas corporations captured our political system and the growing grassroots movement to retake our democracy Mark Ruffalo Over the past decade a new and controversial energy extraction method known as hydraulic fracturing commonly referred to as fracking has rocketed to the forefront of US energy production With fracking millions of gallons of water dangerous chemicals and sand are injected

under high pressure deep into the earth fracturing hard rock to release oil and gas Wenonah Hauter one of the nation s leading public interest advocates argues that the rush to fracking is dangerous to the environment and treacherous to human health Frackopoly describes how the fracking industry began the technologies that make it possible and the destruction and poisoning of clean water sources with the release of harmful radiation from deep inside shale deposits creating what the author calls sacrifice zones across the American landscape The book also examines the powerful interests that have supported fracking including leading environmental groups and offers a thorough debunking of its supposed economic benefits With a wealth of new data Frackopoly is an essential and riveting read for anyone interested in protecting the environment and ensuring a healthy and sustainable future for all Americans A passionate history and critique of the energy industry from Standard Oil to Enron A journalistic expos of fracking outrages in which aggressive entrepreneurs in pursuit of profits wreak havoc on the land and poison the water Kirkus Reviews A truly powerful manifesto about one of the greatest environmental fights on our planet today from one of its greatest champions Bill McKibben environmentalist and author of Oil and Honey **Popular Science** ,2004-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Standing Firmly by the Flag** James E. Potter,2013-01-01 From a pool of barely nine thousand men of military age Nebraska still a territory at the time sent more than three thousand soldiers to the Civil War They fought and died for the Union cause were wounded taken prisoner and in some cases deserted But Nebraska s military contribution is only one part of the more complex and interesting story that James E Potter tells in Standing Firmly by the Flag the first book to fully explore Nebraska s involvement in the Civil War and the war s involvement in Nebraska s evolution from territory to thirty seventh state on March 1 1867 Although distant from the major battlefronts and seats of the warring governments Nebraskans were aware of the war s issues and subject to its consequences National debates about the origins of the rebellion the policies pursued to quell it and what kind of nation should emerge once it was over echoed throughout Nebraska Potter explores the war s impact on Nebraskans and shows how when Nebraska Territory sought admission to the Union at war s end it was caught up in political struggles over Reconstruction the fate of the freed slaves and the relationship between the states and the federal government **Forbes** ,2008 **Automotive News** ,2008 Juvenile Crime and Justice William J.
