

MARK SCHEME for the May/June 2008 question paper

8-9AT HISTORY

005108

Paper 1

Maximum raw mark 100

This mark scheme is published to assist teachers and students to understand the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that take place at an Examiners' meeting before marking begins. Any substantial changes to the mark scheme that arise from these discussions will be recorded in the published Report on the Examination.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

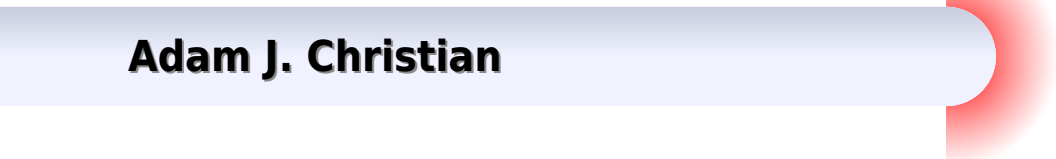

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now placed inside the Report on the Examination for this session.

© CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2008 question papers for most IGCSE and CIE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Answer Paper History 9697 May June 2013:

Regulatory Reform from Nixon to Biden John D. Graham, 2024-10-03 This book examines the development of regulatory policy since the 1960s focusing on how each president from Nixon to Biden stimulated reform Highlighting the increasingly dominant role of the president in the modern administrative state John D Graham presents a regulatory reform agenda for Congress the executive branch and the judiciary

Synoptic Composition Adam J. Christian, 2023-09-01 The fascination with literary dependency in the most popular approaches to the synoptic problem has been built upon a faulty presupposition that oral tradition is incapable of producing the word for word verbal agreement found in the synoptic accounts Recent research in the area of oral tradition has shown that this is not the case but we still rely on increasingly complicated literary models to explain the relationships between the Synoptic Gospels This book engages in comparative analysis of Old Greek quotations found in more than one of the Synoptic Gospels along with the material that surrounds these quotations The resulting conclusions indicate that oral sources may better explain the similarities and differences found in the Synoptic Gospels and that we ought to reexamine our foundational presuppositions in order to craft a better model for understanding the origins of the Synoptic Gospels The hope is that the reader will join the author in seeking to better understand these books that include the climax of the greatest story of all time the true story of people marred by sin and their creator who seeks after them as he redeems all things to himself
